FOOD FOR THOUGHT

"It's unwise to pay too much, but it's worse to pay too little. When you pay too much, you lose a little money — that is all. When you pay too little, you sometimes lose everything, because the thing you bought was incapable of doing the thing it was bought to do. The common law of business balance prohibits paying a little and getting a lot — it can't be done. If you deal with the lowest bidder, it is well to add something for the risk you run, and if you do that you will have enough to pay for something better."

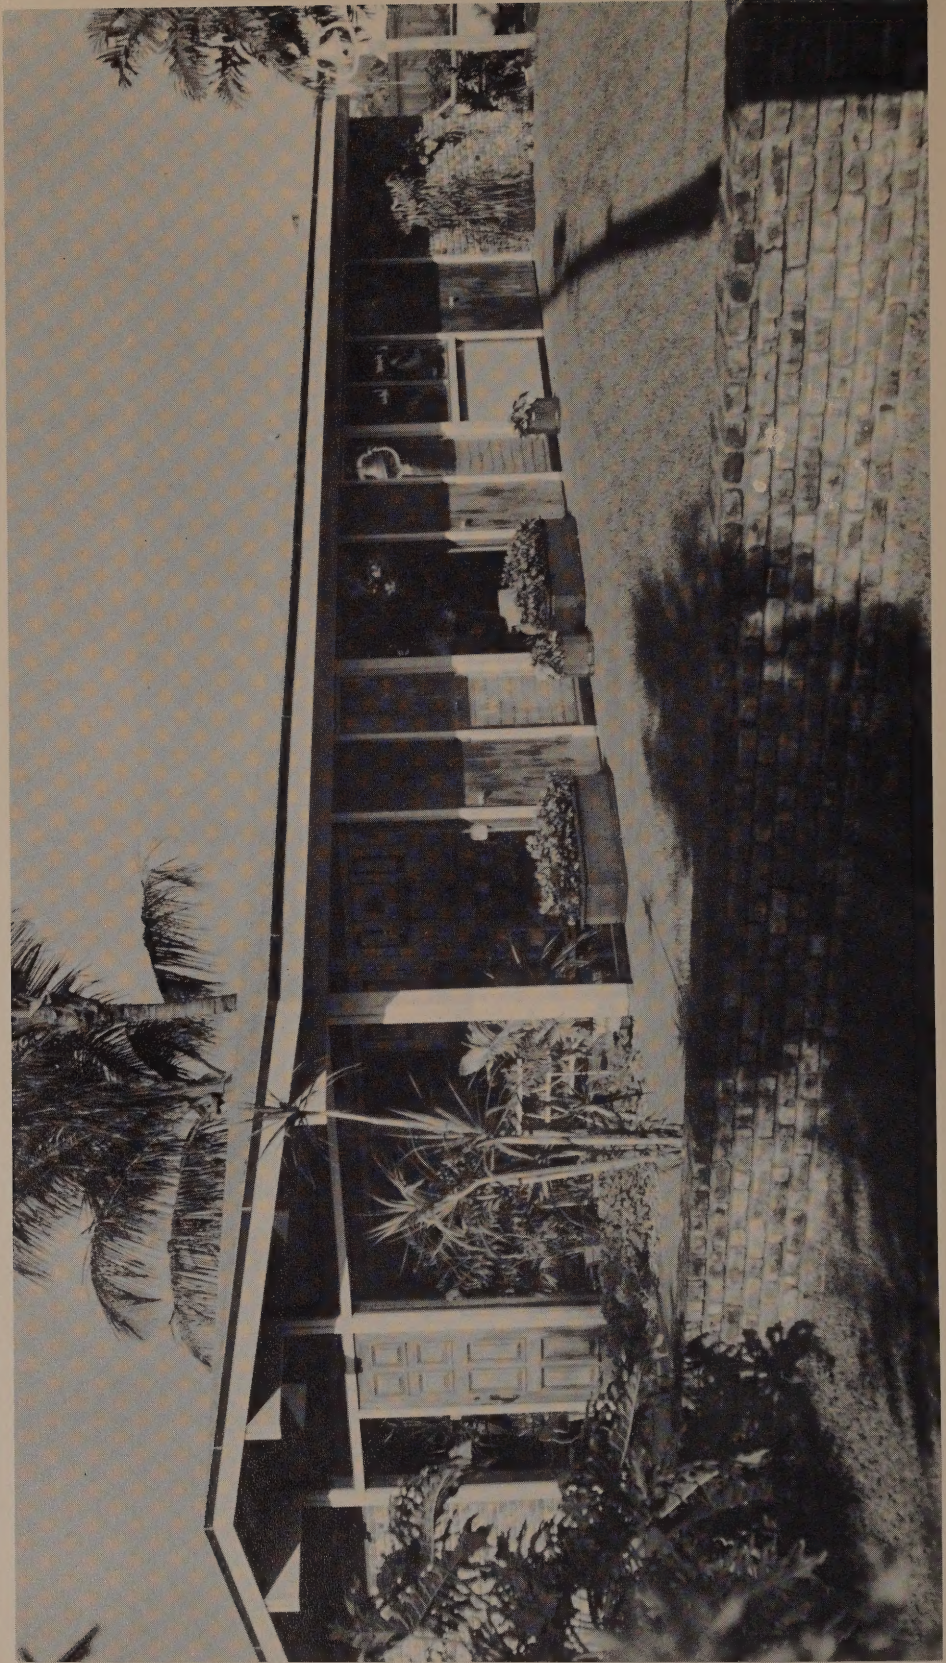

—John Ruskin
(1819-1900)

Bob Scully

We have built our business and reputation on the Quality of the plants we sell, and on our Integrity. Any comments you may have will be welcome, for only in this way can we know how to serve you better!

ASSORTED GENERA

Flowering size plants

YOU will be well rewarded by careful study of this group of plants. We take pride in being able to offer to our discriminating clientele so many outstanding Orchids of FINE unusual types, all of which are gems in their genus.

ASPASIA PRINCIPISSA

BRASSIA GIREOUDIANA

AERIDES

LAWRENCIAE 'Orchid Ranch', AM AOS ('57, 86) from **\$50**
Philippines (Vegetative propagations)

Very handsome. Arching racemes of waxy-white flowers tipped with magenta. Lip creamy-white with deep magenta front lobe. Fall.

ODORATUM India

\$10-\$25

A Vandaceous-type plant. White flowers with apical blotch of amethyst-purple borne on pendulous racemes. Fine specimens. Summer and various.

ASCOCENTRUM

CURVIFOLIUM Thailand (Syn. Saccolabium curvifolium) **\$15**

Multi-flowered, short, erect scapes of bright cinnabar-red; striking. Summer. (See cover photo.) See top page 52.

ASPASIA

EPIDENDROIDES Central America **\$10**

Similar to Principissa but flower is not as large and has more white in it.

PRINCIPISSA Central America

\$10

Epiphytic; habit somewhat resembling that of Brassia. Flowers carried on erect, often solitary or few-flowered scapes. Sepals and petals greenish marked with chocolate-brown; lip white with mauve markings. Spring.

BRASSIA (Spider Orchids)

ALLENI Panama **\$15**

A rare Panamanian species not identified until 1948. Growth similar to Huntleya. The plant has no pseudobulbs, but grows in a fan shape. Flowers have a delicious, permeating scent of honey.

CAUDATA Central America

\$10

Flower scapes, with 6-10 flowers, are about 18" high. Sepals and petals are narrow, tail-like, and lower sepals about 6" long. Dorsal sepals about 3". Light green, tinted yellow. Sepals and petals spotted dark brown on basal portion. Labellum is brighter yellow than sepals and petals. Summer.

GIREOUDIANA Central America

\$10

Sepals and petals yellow-green tinted. The two lower sepals about 5" long, dorsal sepals shorter; sepals spotted with brown basally. Petals about 2" long, heavily spotted on basal half. Lip light yellow. Scapes, 15"-24" tall, have about 9 flowers to the stem. Summer.

LONGISSIMA Central America

\$15

One of the choice Brassias. Flowers are golden-yellow, spotted brown at the base. The lateral sepals are to 10" long. Labellum white, spotted with red-brown. Summer.

BRASSIDIUM

MIAMI 'Orchidglade', AM AOS ('61, 80) (Vegetative propagations) **\$35** (*Brassia maculata* x *Onc. kramerianum*)

Chartreuse with blotches of dark sepia; yellow lip with maroon bars at base. A fine hybrid—intermediate between parents. Winter.

BROUGHTONIA

SANGUINEA Jamaica Mounted on oak log, **\$10-\$15**

Small, red, Cattleya-shaped flowers on stem about 12"-18" long. Easy culture. Flowers all seasons of the year.

SANGUINEA 'CARMEN GAUNTLETT', CBM AOS (1957) **\$50**

(Vegetative propagations)

An extremely rare form. Entire flower of clear, light yellow; an outstanding color variant. Spring and summer. See cover photo.

BROUGHTONIA SANGUINEA

CHYSIS BRACDESCENS

CATASETUM

PILEATUM Brazil **\$50**

Rare. The large size of these waxy-white flowers, and their PURE WHITENESS in every part, gives the plant a magnificent appearance. Summer.

PILEATUM var. AURANTIACUM Brazil **\$50**

Rare. Large waxy-white sepals and petals; lip yellow. Summer.

PILEATUM var. AUREUM Brazil **\$50**

Rare. Large waxy-yellow flowers, yellow in every part; exceptionally beautiful. Summer. See cover photo.

PILEATUM 'ICE-GREEN' Brazil **\$50**

Rare. Large icy-green flowers, selfcolored; exquisite. Summer.

SCURRA Panama On Mexi-Fern Slabs **\$10**

A curious plant of compact, dwarf habit. Pale straw-colored flowers, or waxy-white with green veins, produced on drooping multi-flowered racemes. Lip saccate, side lobes toothed on edges, front lobe strongly fringed. Delightfully scented. Winter.

STEELI Brazil On Mexi-Fern Slabs **\$10**

A handsome epiphytal plant of peculiar habit; drooping flagelliform leaves 2'-4' long. Multi-flowered scapes of large, fragrant, pale primrose-yellow blotched with reddish-brown. Lip pale yellow striated with brownish-crimson. Long-lasting. Various.

CHYSIS

BRACDESCENS Peru **\$12.50-\$15.00**

Very beautiful species; fine white flowers, large, heavy, and wax-like. Winter-spring.

CYCNOCHES CHLOROCHILON

DIACRIUM BICORNUTUM

CYCNOCHES

CHLOROCHILON ('Swan Orchid')

Venezuela, Colombia

\$5, \$6, \$7.50, \$10

\$15, \$17.50

Chartreuse 'waxy' flowers of heavy texture about 5" across. Flowers profusely in late fall. CULTURE: Repot when making growth; also, water and fertilize when making growth. Keep plant dry after flowering until new growth starts.

DIACRIUM

BICORNUTUM Trinidad

\$10

Star-like flowers of white; lip lightly spotted crimson. Blooms produced on long spikes. Deliciously fragrant. Summer. Other sizes page 36.

GRAMMATOPHYLLUM

MEASURESIANUM

Philippines

Interesting genus producing long sprays of bright green flowers profusely marked with irregular-shaped spots and blotches of chocolate or purple. Growth similar to Cymbidium. Spring.

\$25

GRAMMATOPHYLLUM MEASURESIANUM

MAXILLARIA

TENUIFOLIA Mexico

\$7.50

Scapes about 2" long; dark red sepals and petals flecked and marked deep yellow; lip blood-red at base, then yellow with red spots. Spring.

MILTONIA

ROEZLI Panama

\$10

An improved type from the jungle of Chiriqui Province. Multi-flowered racemes of handsome white flowers blotched with purple at base of petals; yellow at base of lip. Fall.

ODONTOGLOSSUM

PULCHELLUM Guatemala

\$7.50

A warm-growing plant of the genus, but likes ample water and good air circulation. Its fragrant, pure white flowers have caused it to be known as the 'Lily of the Valley' Orchid. Waxy flowers with a small yellow spot on the crest of the lip are arranged along the stem in an inverted position. Flowers last in good condition from five to six weeks on this compact-growing plant. Spring.

ORNITHOCEPHALUS

BICORNIS ('Bird's Head Orchid') Mexico

\$3

An epiphytic orchid. The common name "Bird's Head" orchid refers to the form of the column and anther. Small white flowers, usually arching in drooping racemes. Long-lasting. Winter.

PERISTERIA

ELATA Panama

'Dove' or 'Holy Ghost' Orchid

Handsome waxy-white flowers, center parts of which resemble a dove. A large-growing terrestrial preferring semi-shade. Liquid fertilizer advantageous during growing season.

(See page 36 for other sizes)

\$10-\$15

PERISTERIA ELATA

RODRIGUEZIA

SECUNDA Trinidad

\$7.50-\$10

A small plant that adapts itself well to hanging as the scapes are somewhat arching. Flowers during late spring. A most interesting rose-pink color. Easy culture, prefers Cattleya-house temperatures and light. Summer.

VENUSTA Brazil

\$10-\$15

Rare. White flowers on small, graceful plant. Summer.

SCHOMBURGKIA

HUMBOLDTI 'ALBA' Colombia

\$10-\$15-\$25

A rare species from Colombia. These plants have been propagated vegetatively and are of an excellent type. Should be grown in abundant sun. Flowers borne on long sprays. Spring.

TRICHOCENTRUM

ALBAVIOLACEA Brazil

\$7.50

A dwarf-growing epiphyte. Chartreuse, densely overlaid with minute brown spots; lip white, prominent magenta side lobes. Spring and summer.

VANILLA PLANIFOLIA **Central America**

The plant from which commercial Vanilla is obtained. Its vining habit lends itself to training along a wall or vent shaft for an interesting and beneficial effect. Spring.

2 plants per pot on Tree Fern \$2

Racks of FLASKS at Orchidglade for
your future pleasure!

— FLASKS —

The selection of interesting new Hybrids we now have in Flasks is tremendous. If you will indicate your SPECIFIC interests as to genera, or specify "Unusual Inter-generics", we shall be glad to supply quotations. Your correspondence is invited. See offer page 45.

Orchidglade's **PLANT-A-MONTH PLAN**

(You get a Baker's Dozen . . .

Your 13th Orchid Plant is FREE!)

When we started this PLAN several years ago, we had no idea of its now proven popularity. Meantime, we have shipped literally thousands of flowering-size plants to our PLANT-A-MONTH customers.

Our manager, Bob Scully, regularly reviews each of the PLANT-A-MONTH Orders to prevent duplication of previous shipments, then personally selects the Orchids specified by the individual for delivery during the first week of each month.

If it's SEEDLINGS you wish to acquire monthly, such shipments can also be arranged on our PLAN. These keep your collection from becoming outdated, and our variety is enviable.

According to the specifications you outline on SIDE ONE of the enclosed Order Blank—as to genera and colors you wish, as well as the amount you wish to spend—we will ship an Orchid Plant each month, READY TO FLOWER, and bill you for payment by the 10th of the following month. — Or, if it's SEEDLINGS that appeal to you, supply your specifications on SIDE TWO of the Order Blank. Why not both?

In view of the many merits of our PLANT-A-MONTH PLAN, and the added advantage of having Mr. Scully's vast knowledge of Orchids at your disposal, what better assurance could you have of building a fine collection of Orchids for year-round flowering?

ANGRAECUM

Flowering-size plants

ANGRAECUM EBURNEUM

ANGRAECUM EICHLERIANUM

DISTICHUM Africa

\$3.50

A miniature producing numerous stems of small, pure white flowers. Blooms many times during the year.

EBURNEUM Madagascar

\$35

Choice. Plant grows in a fan shape, producing multi-flowered spikes of greenish-white with a long spur. Winter. Other plants see pg. 35.

EICHLERIANUM Africa

About 15" tall — **\$10-\$15**

Interesting vining type on Tree Fern pole. Greenish-white flowers. Spring.

FALCATUM X SELF (No. 903)

(depending on no. offshoots) **\$7.50-\$10.00**

A miniature with all the grace and charm of its larger-growing relatives. Small white flowers with long spurs. Summer.

GIRYAMAE Africa

\$75

Large, pale green flowers with glistening white lip of fleshy substance, as if carved from ivory. Strong sweet scent. Winter.

SESQUIPEDALE X SELF

\$15

One of the curiosities of the Orchidaceae. Heavy, wax-white flower with nectary about 12" long. Winter.

SCOTTIANUM Africa

\$15

Large, pure white flowers with 6" spur of brownish-yellow; similar in shape to eburneum. Summer.

VEITCHI (sesquipedale x eburneum)

\$25-\$35

Flower characteristics of sesquipedale, but more floriferous as in eburneum. One of the most satisfactory hybrids. Easy culture. Winter. Other sizes pg. 35. See cover photo.

ANGRAECUM SESQUIPEDALE

ANGRAECUM VEITCHI

BRASSAVOLA

Flowering-size plants

ACAULIS Central America

On Tree-Fern Slabs **\$12.50**

Rare. Large, creamy-white to green-tinged flowers with white heart-shaped lip. Flowers borne close to base of rush-like foliage. Summer.

CUCULLATA Mexico

\$7.50

Sepals and petals white, shaded green. Cucullate white lip. Flowers about 2" across. Fall.

DIGBYANA Honduras

\$12.50

Most outstanding of the Brassavola species, and most popular for use in Brasso hybrids. Large pale green to greenish-white flowers; large, deeply-fringed lip. Various.

GLAUCA Honduras

\$12.50

Small-growing plant with glaucous foliage. Greenish-white flowers of heavy substance. Spring.

NODOSA Central America ("Lady of the Night")

\$5

Pure white small flower, wonderfully fragrant at night. Produces flowers in abundance and blooms several times a year. Spring and summer.

NODOSA, Orchidglade's Selected Variety

\$10

A fine strain; flowers larger than the type, and foliage broader. All are vegetative propagations from one selected specimen. Flowers profusely. Spring and summer.

BRASSAVOLA NODOSA, "Orchidglade's Selected Variety"

832 NODOSA (Orchidglade's selected var.) X SELF

\$7.50-\$10

Seedlings obtained from selfing our fine strain of Brassoala nodosa which is pictured above. Summer.

BLC. FRECKLES (B. nodosa x Lc. Purcad)

\$10

White to greenish-white sepals and petals, colored labellum. Summer.

BC. NANIPUAKEA (B. nodosa x C. Hardyana 'Alba')

\$10

White with colored labellum. Spring and summer.

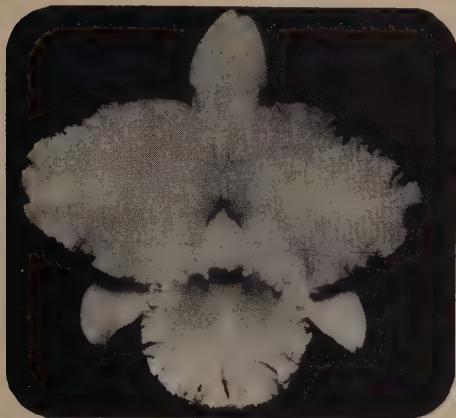

CATTLEYA

WHITE

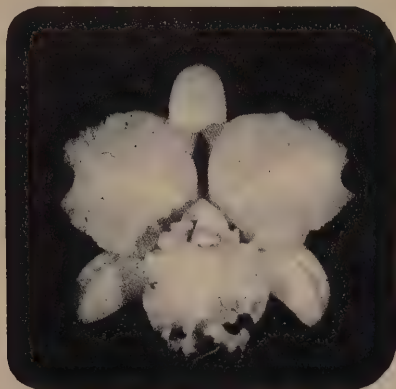

Mature, Flowering-Size Plants

C. Bow Bells Hybrids

Cattleya Bow Bells and its hybrids are the finest Whites known today. They are outstanding for their size, albinism and excellent substance. Hybridization of C. Bow Bells has produced plants which will flower during various seasons of the year.

C. BOW BELLS

C. PEARL HARBOR

Flowering size plants in from 6"-8" pots.

C. ALICE SHIRAI (Bow Bells 'London Pride' x Snow Song)	\$25-\$35

No. 859 C. JOYCE HANNINGTON 'SEPTEMBER MORN' X SELF

A tetraploid.

Fine-quality White. Light controllable.

Flowering size—In sheath—\$20-\$30

WHITE —Flowering-size Plants

- 53 C. ANN FALLER X C. MOSSIAE, WAGNERI 'Orchidhaven'** \$20-\$25
White. Spring.
- 307 C. BEVERLEY BOSWELL (Celia x December Snow)** \$25
A lovely, medium-size, white bearing many flowers to the stem. Winter to Spring.
- 80 C. CLARIS (Syn. St. Petersburg)** \$25
(Clementine Goldfarb x Eucharis)
Excellent free-flowering white with yellow throat. Often flowers several times a year.
- 635 C. CLARIS X C. HELEN P. DANE** \$20-\$30
White. Fall.
- 95 C. EVAMAY PATTERSON** \$20-\$25
(Intertexta 'Juliette' x Trianaei 'Broomhill')
Large, pure white for Christmas season.
- 111 C. FLORENCE PATTERSON** \$20-\$25
(Rita Sladden x Clementine Goldfarb)
One of the large whites for late winter and early spring. Good producer and strong grower.
- 481 C. FRANCES LAWS** \$20
(Joyce Hannington x Trianaei 'Broomhill')
A fine white flower for winter production.
- 54 C. GRAVESIANA 'ALBA'** \$20-\$30
(speciosissima 'alba', FCC x Mossiae 'Wagneri')
White. Early spring.
- 461 C. LAUNA ELLEN THORNTON** \$20-\$25
(Souvenir de Louis Sander 'The Bride' x Astron)
A lovely, large white flower with yellow throat. Late winter.
- 57 C. LORNA (Enid 'alba' x gigas 'Frau Melanie Beyrodt')** \$20-\$30
White. Spring.
- 91 C. LORRAINE SAWTELLE** \$25
(Clementine Golfarb x Barbara Dane)
Large, well-shaped flower with golden-yellow throat. Fall and winter.
- 796 C. LYRA (Celia x Claris)** \$20-\$25
White. Fall.
- 63 C. MAGGIE BARTEL (Trentino x Mossiae 'Wagneri')** \$20
Flower has just a whisper of pale yellow in throat. April, May, June.
- 123 C. MARION DAVIES (Edithiae x Gravesiana 'Alba')** \$15
A good producer of whites for winter.
- 96 C. MARION PATTERSON** \$20-\$35
(Marion Davies x Trianaei 'Broomhill')
Large, pure white flower for Christmas and later.
- 51 C. MLE. LOUISE PAUWELS** \$20-\$25
(Edithiae, No. 1 x intertexta 'Juliette')
White. Spring.
- 531 C. PEARL (Blanchleys x Bobby Jewell)** \$15
White, to offshade of white. Spring.
- 62 C. SUNRISE CHALET** \$20-\$30
(Henrietta Patterson x Mossiae 'Wagneri')
White. Spring.

Among the BOOK Selections available this year, there are a number of exceptionally fine new ones worthy of consideration for your Orchid Library. Don't miss out! See pages 53 and 54.

SEMI-ALBA

— Flowering-size Plants

(Formerly called *White-with-Colored Labellum*)

- 323 C. ALESIA (Dionysius x Mossiae 'Reineckiana') \$20**
Similar to cross #322, but flowers in February and March.
- 322 C. ALICE PEARCE \$20**
(Mossiae 'Reineckiana, Young's' x Princess Royal 'Alba')
White sepals and petals with Mossiae-type, mottled labellum. Late winter and early spring. Good producer.
- 56 C. ARDMORE 'ALBA' \$20-\$25**
(Mossiae 'Rtineckiana, Young's' x Enid 'Alba')
An excellent spring-flowering hybrid—usually May and June. Large flower with Mossiae-type bellum.
- 48 LC. CANHAMIANA 'ALBA' \$25-\$30**
(C. Mossiae x L. purpurata)
Fine producer of large whites with colored lip. May-June.
- 324 C. CATHERINE PATTERSON (Enid 'Best' x Mrs. F. Knollys) \$20**
White; Mossiae lip less mottled than many of its hybrids. Winter.
- 315 LC. CLARA SCHREIVER (C. Raphaelaurea x Lc. Jane Dane) \$25**
An outstanding flower of good substance; white sepals and petals stand out against the bright-colored throat and colored labellum. Fall, early winter.
- 371 LC. CYNTHIA 'MAJESTIC', FCC x C. DIONYSIUS 'ALBA', GMW \$30-\$35**
A wonderfully-proportioned flower. Brilliant white with colored lip. Fall.

LC. CYNTHIA 'MAJESTIC', FCC
X
C. DIONYSIUS 'ALBA', GMW

LC. JAY MARKELL 'SAM SHARPE',
A.M. A.O.S., S.M. S.F.O.S.

- 184 BLC. DOROTHY JONES from \$25**
(Blc. Nanette x C. White Empress, FCC)
A Nanette cross which has proven to be a fine hybrid for fall and early winter. We have many fine forms from pure whites to whites-with-colored-lips. August-December.
- 59 C. ENID 'ALBA' (Mossiae 'Reineckiana' x gigas 'F.M.B.') \$15-\$25**
Exceptionally floriferous. Beautiful, large orchids with white sepals and petals and mottled purple lip. Excellent grower. A 'must' for any collection. Winter.
- 372 BLC. GUILHERME GUINLE (Blc. Nanette x Lc. Stevenson) \$25**
Large flower; clear white sepals and petals with a more solid pattern in labellum than most of the Nanette hybrids.
- 346 LC. JANE FROMAN \$15-\$20**
(C. Alwyni 'Jane Froman' x Lc. Hassali 'Cowan's', FCC)
Fine, free-flowering plant. April, May, June.

SEMI-ALBAS**—Flowering-size Plants**

- 112 LC. JAY MARKELL** **\$25-\$40**
 (Lc. Cynthia, FCC RHS x C. May Markell)
 A fine hybrid. White, dark lip—one of the finest—especially for winter flowering. (Fine cultivars available periodically.) See page 24.
- 370 C. JOYCE HANNINGTON 'PERFECTION' X BLC. NANETTE** **\$25**
 Large flower, lovely conformation. Some have white sepals and petals, others are tinted—the so-called 'pastels' or 'pink' shades. Fall and winter.

**BLC. RAMONA FLEISCHER****BLC. NANETTE**

- 312 BLC. KATHLEEN KOCK** from **\$25**
 (C. Barbara Dane x Blc. Nanette)
 From this cross have come some of the finest whites with colored lips that we have for fall flowering. Color patterns and all of the lips seem to be different. September-December.
- 71 LC. LOUELLA PARSONS** **\$20-\$25**
 (C. gigas 'F.M.B.' x Lc. Jane Dane)
 Fine, free-flowering white with mottled, colored labellum. Most flower in June, but often blooms again in the fall.
- 313 C. MARGARET VICTORIA** **\$20-\$30**
 (Raphaেলাurea x gigas 'F.M.B.')
 A fine white flower with colored labellum. Yellow eyes in throat of lip add greatly to beauty of flower. One of the best whites-with-colored-lips for summer and fall.
- 365 BLC. NANETTELLA** (Blc. Nanette x C. Priscilla 'Alba') **\$15-\$20**
 Large white, well-shaped flower; line of purple in labellum. Winter.
- 342 BLC. RAMONA FLEISCHER** (Lc. Jane Dane x Blc. Nanette) **\$25**
 Fine, heavy-textured, white sepals and petals; solid, reddish-lavender labellum. Excellent quality. December, January, February.
- 10 LC. ROEDANNIA** (Schroederae 'Alba' x Britannia 'Alba') **\$25**
 Pure papery-white sepals and petals; solid red labellum, throat golden-yellow. Fall to winter.
- 183 BLC. SCHROEDERNETTE** from **\$25**
 (Blc. Nanette x C. Schroederae 'The King')
 A Nanette hybrid of excellent quality. A distinctive large flower with clear white sepals and petals, brilliant dark labellum and yellow throat.
- 338 BLC. WAGNETTE** **\$17.50-\$20**
 (Blc. Nanette x C. Mossiae 'Wagneri')
 Lovely, large flower. Many have tints of color in sepals and petals with line of purple in labellum, yet others have clear white sepals. Winter.

LAVENDER

— Flowering-size Plants

- 74 LC. ALMA ISHIZAKI** from **\$35**
(Lc. Areca 'Model', FCC x Lc. Hertha)
Wonderful, large, dark flower characteristic of its parents; good shape. Floriferous. Fall, early winter.
- 97 LC. AMERICAN SECURITY** **\$25**
(Lc. Princess Margaret x Royana)
Medium-dark lavender flower. June-July.
- 12 C. APRIL (Edithiae x Jocasta)** **\$25-\$35**
Produces light lavender flowers in great quantity; plants in 7" pots often produce from 18-24 flowers. Blooms in April.
- 180 BLC. BISCAYNE BAY** from **\$25**
(Bc. David Adams x Lc. Hertha, FCC)
A new hybrid of recent introduction; outstanding for its dark, well-shaped flowers. Winter.
- 328 LC. CAROL CHANNING** **\$20**
(Lc. Derrynane 'Henrietta Patterson' x C. Royana, extra fine)
Dark; excellent grower; spring flowering.
- 314 BLC. COLLETT EVERMAN WOOLMAN** **\$20**
(Lc. Princess Margaret 'Stonehurst' x Blc. Ishbel)
Color has varied from light to very dark, but all flowers have been exceedingly fine. Large flowers of good substance; dark lip. Winter.

BLC. COLLETT EVERMAN WOOLMAN

LC. GEORGE BALDWIN

- 529 C. DARK EMPEROR** **\$25-\$30**
(Nigritian x Nigrella 'Jungle Princess')
One of the very dark hybrids that flowers summer to fall. An exceptionally fine cross.
- 341 BLC. DICK HOFFPAUIR (Lc. Miranda x Bc. Penrun)** **\$35**
Large flower of unusual coloring. Best described as dark mauve infused with red. June, July.
- 432 C. EMPRESS FREDERICK X C. DINAH, AM RHS** **\$25-\$35**
Large, dark mauve flower. Floriferous. Spring.
- 75 LC. FRANCES LIBERACE** **\$35**
(Lc. Areca 'Model' x Lc. Princess Margaret)
A Princess Margaret hybrid of outstanding quality; flowers are dark and well shaped; often flowers twice a year; vigorous grower. Fall and winter.
- 332 LC. GEORGE BALDWIN** from **\$25**
(Lc. Princess Margaret x C. Enid 'Orchidhaven')
One of the choice well-known hybrids. Large, dark flowers. Often blooms twice a year—June, July and again in December, January.
- 187 BLC. HOLLYWOOD** **\$25-\$35**
(Lc. Mrs. Hanmer x Bc. David Adams)
A fine, large dark, heavy substance hybrid for winter and spring flowering. Excellent quality.

Lavenders

—Flowering-size Plants

- 327 LC. IDA S. MYERS** (Lc. Windermere, AM x C. Enid '4-X') **\$25**
Rosy-mauve, medium-size, compact, flat-type flower. Winter. (Fine cultivars available periodically.)
- 113 LC. IMPERIAL SUGAR** (Lc. Hilary, FCC RHS x C. Mt. Royal) **\$25**
Floriferous and good grower. Medium-dark lavender flowers, for winter and spring.
- 345 LC. KISMET QUEEN** **\$25-\$50**
(Lc. Princess Ishtar 'Hawaiian Queen' x Lc. Kismet 'rotunda')
Exquisitely-shaped flowers. We have several plants of the cross which have won awards. Color varies from light to very dark. (Fine cultivars available periodically.)
- 26 C. MAUGUS X C. DUPREANA** **\$20-\$25**
Dark lavender flower. Spring to early summer.

LC. IDA S. MYERS

LC. KISMET QUEEN 'ORCHIDGLADE',
AM AOS

- 43 C. OLD FORESTER** (Charybdis x Enid) **\$25-\$40**
Heavy-textured flower, good form, heavy substance. Large flowers vary from light lavender to medium-dark mauve. One of the lovely new hybrids. Prefers strong light for best flowering. Fall. (Fine cultivars available periodically.) See pg. 24.
- 340 LC. PRINCESS MARGARET 'BONYCREST' X LC. MIRANDA** **\$20**
Large, fine-shaped flowers. Flowering season predominantly summer.
- 199 LC. ROBERT DOIG** **from \$20**
(C. Belgica 'Robert Doig' x Lc. Titymoma 'Supreme')
Medium-size; fine shape. Vigorous and floriferous—sometimes to 12 flowers at a time. Winter.
- 609 } LC. ROCK CITY** (Lc. Frank J. Lind x C. Mossiae) **\$25**
610 } Dark flowers. The Mossiae parent helps to improve the vigor of the hybrid. Spring.
- 318 LC. ROZILLA** (Lc. Edna Richter x C. Mossiae) **\$30-\$35**
One of the loveliest of the spring-flowering hybrids. Petals are wide. Good full flower with contrasting dark labellum. Excellent producer.
- 269 LC. SPRATT MANGUS** (Lc. Tegucigalpa x C. Trianaei) **from \$20**
Nicely-shaped mauve flower for Christmas and New Year seasons.

LC. ROBERT DOIG

C. OLD FORESTER 'SPARKS', SM SFOS

Lavenders — Flowering-size Plants

- 177 LC. TOMASITA ZEPPEFELT** (C. Fabia x Lc. Max Palm) **\$20**
Large, dark flowers for August and September.
- 539 LC. VALOR** (Lc. Helen Wilmer x C. Palatine) **\$25**
Dark, well-shaped flowers. Winter.
- 76 LC. WALTER WINCHELL** (C. TAPPAN x Lc. Dupresan) **\$25-\$35**
Very floriferous. A fine medium to dark flower. Blooms in the fall and again in the winter.

YELLOW

Flowering-size Plants

- 129 LC. AUTUMN YELLOW** **\$20-\$25**
(Lc. Thurgoodiana x Lc. Page Platt)
- 42 BC. BARBARA WILCOX** (Bc. Fredaul x C. Dowiana) **\$25-\$35**
- 448 BLC. CAMEO** **\$25-\$30**
(Blc. Zanturano 'Laburnum' x Lc. Anne Walker)
- 465 BLC. CHIEF JOSEPH 'GOOD' X LC. PLYMOUTH 'FINE'** **\$25-\$30**
- 402 BLC. DOLPHELIA, No. 2 X BLC. MIDENETTE, No. 2** **\$25-\$35**
- 477 C. GOLD JEWELL** **\$25-\$30**
(R. H. Jewell, FCC x Hardyana 'Clement Moore')
- 41 BC. GOLDEN CONCOLOR** **\$25-\$35**
(Bc. Golden Jewell x C. Dowiana)
- 535 BLC. GOLDEN HOUR** **\$25-\$35**
(Lc. Corsair x Blc. Consul Greig)
- 77 BLC. JANE HELTON** **\$25-\$30**
(Blc. Xanthea x Blc. Dorothy Lowe)
- 483 C. LEILA ARONSON** **\$20-\$25**
(Joyce Hannington x Robert H. Jewell)
- 405 BLC. MIDENETTE, No. 12 X LC. HAROLDIANA, No. 1** **\$25-\$30**
- 515 BLC. MORNING SUN X SELF** **\$25-\$35**
- 403 BLC. ROCOCO** **\$25-\$35**
(Lc. Hangkow, No. 2 x Blc. Mindenette, No. 10)
- 474 (LC. TRIUMPHANT X C. R. H. JEWELL)**
X **\$20-\$25**
L. TENEBROSA 'WALTON GRANGE'
- 404 BLC. VILLA VIZCAYA** **\$25-\$35**
(Blc. Ophedo, No. 7 x Fine Hybrid)

ADD-A-PLANT-A-MONTH KEEP YOUR COLLECTION MODERN for \$10 - \$100 per month

Pep up your Orchid Collection with a monthly addition of a ready-to-bloom plant; you'll soon have orchids in flower the year 'round!
Your specifications on the enclosed order blank will guide us in helping you to improve—or build—your Orchid collection. See page 8.
As an expression of our thanks for your patronage, your 13th plant is free!

Don't Delay — Join Today!

SPECIES BIFOLIATES AND UNIFOLIATES HYBRIDS

Established, Flowering-size Plants

Sensing the swing in the pendulum of taste for smaller Cattleyas of floriferous habit, you will discover numerous additions to our offerings of Bifoliates and Unifoliates. Their varied forms and vivid colors add distinctive beauty to the collection of the most discriminating.

C. AMETHYSTOGLOSSA Brazil \$25

Tall-growing, floriferous. 5" flowers of light rose spotted rich magenta-purple. Lip deep magenta-purple. Lasts in perfection up to five weeks. Spring.

C. AUDRY SCHUBERT (Loddigesi x Annie J. Lines) \$15

Rose-mauve sepals and petals; yellow throat. Fall and winter.

LC. BARTON (C. granulosa x Lc. Canhamiana) \$12.50-\$20

Tan to chartreuse shades; rich isthmus labellum. Fall.

C. BEVERLEY BOSWELL (Celia x December Snow) \$25

Lovely, medium-size, white flowers bearing many flowers to the stem. Winter and Spring.

C. BOWRINGIANA X LC. RED OAK \$35

Vigorous-growing plant as characteristic of C. Bowringiana. Flowers intermediate in size—brilliant dark color. Fall.

C. BOWRINGIANA 'SPLENDENS'

L. FLAVA

C. FORBESI

L. CINNABARINA Brazil \$7.50-\$10

Darker than the type; generally self-colored vermilion, but some are actually blood-red—more red than scarlet Sophronitis. A charming and distinct species; very compact. Spring.

L. CINNABARINA var. COWANI Brazil \$12.50

Clear yellow flowers borne on erect spikes. Summer.

C. DAVID FAIRCHILD (Dupreana x Loddigesi 'violacea') \$25

A lovely type; excellent producer and vigorous grower. Spring and early winter; generally flowers twice a year. Slightly different in shape from Marian Fairchild; somewhat lighter.

C. ELONGATA Brazil \$50

Dark red flowers with the gloss of polished wax. This is one of the parents of C. Rembrandt. Only a limited number. A bifoliate. Summer. (See cover photo 10/58 AOS BULLETIN.)

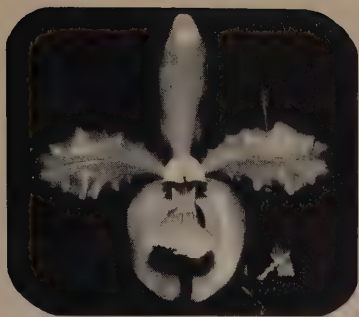

L. FLAVA Brazil \$10-\$15

Cylindrical racemes of 8-10 canary-yellow flowers. Flowers last three weeks in perfection. Spring-Summer.

C. FORBESI Brazil \$15

Buff to yellow; lip yellow streaked with red. Spring and summer.

A gentleman's Badge of Distinction . . . an Orchid Boutonniere!

C. GRANULOSA

C. HENRIETTA JAPHET

C. FORBESI X LC. BEAUFIGHTER

\$15

Interesting flower of medium size; buff to beige color with yellow lines in throat as characteristic of Forbesi. Summer.

L. GLOEDIANA Brazil

\$15

Rare. Yellow-flowering species.

C. GRANOLD (granulosa x Harold 'alba')

\$15

Tan to chartreuse shades. Fall.

C. GRANULOSA Brazil

from \$12.50

Handsome olive-green flowers of 5" diameter with rich brown spots; lip whitish, crimson spotted. Long-lasting. Late summer and fall.

L. HARPOPHYLLA Brazil

\$15

Flowers 2"-3" across, bright orange-red; midlobe of lip margined with white. Late winter to spring.

LC. HARRI-ANCEPS (C. Harrisoniana x L. anceps)

\$15

A small-growing plant; flower stem as with L. anceps.

C. HENRIETTA JAPHET

\$20-\$30

(Eucharis x Loddigesi 'Stanley's', FCC)

One of the finest of the white bifoliate-type hybrids. Will produce 6-8 flowers to the stem. Winter-Spring.

C. INTERMEDIA (from seed)

\$15

Light lavender. Spring and summer.

C. INTERMEDIA var. ALBA

\$15-\$35

The white form of this species. Spring and summer.

C. KENCOLOR (bicolor x Kenosha)

\$10

Color variable—pale lavender through tan and greenish-yellow shades. Fall.

C. LEOPOLDI (syn. C. guttata var. Leopoldi) Brazil

from \$25

Tall-growing, floriferous. Fleshy flowers 2"-4" across. Tawny-yellow, densely spotted with crimson; lip rose-purple. Requires a decided rest. Late summer.

L. HARPOPHYLLA

C. INTERMEDIA

C. LITTLE ANGEL**\$35-\$50****(O'Brieniana 'alba' x Loddigesii 'Stanley's', FCC RHS)**

Crispy-white flower, heavy textured, medium size. The C. Loddigesii 'Stanley's', FCC RHS, is the famous albino bifoliate species plant.

**C. LITTLE ANGEL****C. SKINNERI 'ALBA'****C. MARIAN FAIRCHILD (Eleanor x Loddigesii 'violacea')****\$25**

An exceptionally fine type. Flowers medium-dark mauve borne on heavy stems; beautiful dark lips. Spring, summer and fall.

C. NOBILIOR Brazilfrom **\$20**

Delicate rosy-lilac overall; large primrose blotch on lip. Fall.

SCHOMBOLAEIA RUPESCENS—Natural Hybrid—Brazil**\$12.50****(Schomburgkia vellozicola x Laelia longipes)**

Rare. Charming rose flowers strongly tinged with magenta; lip yellow and magenta. Plant and flower size similar to L. flava.

L. RUPESTRIS Brazil**\$10-\$12.50**

Habit that of a dwarf, sturdy form of L. flavo. Purple-violet flowers with paler throat; closely set on spikes. Fall.

C. SCHILLERIANA Brazil**\$15**

A charming species of dwarf habit. Deep rosy-mahogany, sometimes spotted; lip has darker stripes and shadings and edged with pink. Spring.

C. HENRIETTA JAPHET X L. HARPOPHYLLA

Plant growth similar to the L. harpophylla parent.

Many orange to yellow flowers on upright stem.

Spring.

\$15-\$20**VAR. CANARY****C. SCHOEFELDIANA Brazil**from **\$25**

A handsome evergreen species. Tawny-yellow flushed purple and tinged green, spotted crimson-purple. Lip covered with lamellae and papulae of bright magenta-purple. Late summer.

C. SKINNERI var. ALBA Central America**\$25-\$50**

The white form of this free-flowering species of dwarf habit. Exceptionally beautiful. Spring.

LC. TIBERTA (Lc. Ibbie x C. Berti)**\$15-\$25**

A tall-growing vigorous plant. Produces large heads of many medium-size, dark mauve flowers. Fall and winter.

C. WALKERIANA Brazil**\$15**

A truly elegant species of dwarf habit. Large, sweet-scented flowers of bright rose-purple; three-lobed, self-colored lip. Long-lasting. Winter.

"Philippine Holiday" — ORCHIDGLADE'S 200-sq.-ft. Exhibit Seventeenth Miami International Orchid Show, February 1961.

FIRST PRIZE in Largest Class:

Silver Medal Certificate—A.O.S.
Medallion—S.F.O.S.
Silver Trophy—S.F.O.S.

ARTISTIC MERIT:

Special Silver Award—S.F.O.S.

BLC. JEWELL HIGDON:

For best Yellow in Show:
Needles Silver Trophy
H.C.C.—A.O.S.

ANGRAECUM EBURNEUM 'ORCHIDGLADE':

For most Outstanding Vandaceous Plant in Show:
Trustees' Silver Trophy—S.F.O.S.

C.C.M.—A.O.S.

C.C.A.—S.F.O.S.

ANGRAECUM SESQUIPEDALE 'ORCHIDGLADE':

C.C.M.—A.O.S.

C.C.A.—S.F.O.S.

C.B.E.—S.F.O.S.

AWARDS RECEIVED FOR ABOVE EXHIBIT

RHYNCHOSTYLIS GIGANTEA var. PETOTIANA:

For Most Outstanding Botanical Plant in Show:
Certificate—Florida Orchid Association.

C.C.M.—A.O.S.

C.B.E.—S.F.O.S.

C.C.A.—S.F.O.S.

RHYNCHOSTYLIS *GIGANTEA var. RATTANA:

C.C.M.—A.O.S.

Taxonomically *Rhynchostylis densiflora* is now
Rhynchostylis gigantea. See pg. 52.

Orchids for the Connoisseur

—GENERAL LISTING—

These plants are for Collectors interested in Superior Quality, and for Hybridizers for use in breeding. If Orchids of this calibre interest you, your correspondence is invited. However, please do NOT ask us to sell 'pieces' of our Connoisseur Stock, for these superlative clones are sold only as established, flowering-size plants.

Here, and on the succeeding pages, is a partial listing of what is available in Connoisseur Plants from time to time. Please advise if you wish to receive the subsequent listings of plants ready for immediate sale as we publish them periodically. Our FALL 1961 ORCHIDS FOR THE CONNOISSEUR are offered on page 24 and 25.

* Figures in parentheses indicate year of award and points scored.

Initials identifying Awards and Societies:

- FCC—First Class Certificate—AOS and RHS
- AM—Award of Merit—AOS and RHS
- HCC—Highly Commendable Certificate—AOS and ODC (Ranks just below an AM)
- AOD—Award of Distinction
- GM—Gold Medal—comparable to FCC
- SM—Silver Medal—comparable to AM
- GMW—Gold Medal Winner
- CCM—Certificate of Cultural Merit
- CCA—Certificate of Cultural Achievement
- CBE—Certificate of Botanical Excellence
- AOS—American Orchid Society (Register of Awards available)
- SFOS—South Florida Orchid Society (Register of Awards available)
- RHS—Royal Horticultural Society
- ODC—Orchid Digest Corporation
- HOS—Hawaiian Orchid Societies
- SWOC—Second World Orchid Conference

Pot. Red Friar

Watch our ads in the American Orchid Society BULLETIN!

Foliage Plants

STAGHORN FERN

Platycerium alcicorne — and other varieties—Mounted on cork bark.

from **\$10**

PLATYCERIUM WILHELMINA 'REGINA'

New upright-growing type in pot.
Our import from Europe.

\$10

HOYA CARNOSA

5" pot \$5

A vining plant with fine variegated foliage. Small clusters of white, wax-like flowers.

'Precious' *BERLIN POT planted
with *Platycerium*.

\$15

SPATHIPHYLLUM MOANA LOA

A fine hybrid. Flowers all seasons.

5"-6" pot \$3.50

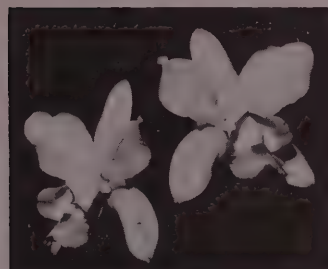

* Copied by one of our ceramists from a container we saw used so successfully by growers in Berlin. Ideal for Ferns, *Phalaenopsis*, Pendulous-type *Dendrobiums*—or any plant which looks well against a wall. Other PRECIOUS POTS pg. 63.

(Cont. Pg. 37)

CATTLEYA AND ALLIED GENERA

BC. HARTLAND

C. LITTLE ANGEL
'EASTER'

C. EMPRESS BELLS
AM SWOC

C. JOYCE HANNINGTON
'Orchidglade'

1117 Lc. Medon 'Coronet' x Bc. Hartland 2" \$2.00
Large dark flower. Fall to winter.

1114 C. *Bob Betts 'Miami Shores', AM AOS
(tetraploid)
x C. Little Angel 2" \$2.00
Medium-size white; bifoliate. Spring.

1113 Lc. Clara Schreiber 'Angel Wings'
x 2" \$2.50
C. Catherine Patterson 'Orchid Ranch'
Large white; colored lip. Exhibition Quality. Winter.

1106 Lc. Clothilde x C. guttata 'Red'
Medium-size; odd shades of lavender 2½" \$2.50
to red. Bifoliate. Summer.

1029 C. Kreszentia x Lc. Gertrude Page
Medium-size cream to yellow. Spring 2" \$2.00
to summer.

1028 C. Blossom Ross 2" \$1.50
(Joyce Hannington x intermedia
'alba')
Medium-size white for June flowering.

1027 C. Empress Bells x Lc. Karl Bridges 2" \$1.50
Medium-size yellow. Spring.

1026 C. Joyce Hannington x C. Magali Sander 2" \$1.50
Medium-size white. Spring.

1010 Blc. *Norman's Bay 'Lucile', AM AOS
SM SFOS (tetraploid) 2½" \$5.00
x Blc. Heron's Ghyll 'King'
Dark, Exhibition-quality flower. Winter.

1008 C. Joyce Hannington 'Giant' 2" \$2.00
x C. Francis T. C. Au 'XMAS'
Large white of Exhibition Quality. Early winter.

1001 C. Dick Whittington 2" \$2.00
(Bow Bells x labiata 'Harefield Hall')
Diploid LABIATA. Large whites, excellent form. Fall.
Controllable.

BLC. XANTHEDO
'NEW YEAR'

LC. GEORGE BALDWIN

LC. GOLDEN STAR

D. JACQUELYN THOMAS
'ALBA'

D. KHAW YEONG HONG

- 854 Blc. Xanthedo 'New Year' 2½" \$2.50**
x **Lc. Charlesworthi**
Yellow to red colors; unusual. Winter.
- 853 C. Trianaei 'Broomhill' 2½" \$5.00**
(diploid)
x **C. *Pearl Harbor 'rotunda',**
AM AOS, SM SFOS
(pentaploid)
Reverse of hybrid #869. Fine white.
- 844 C. labiata 'Harefield Hall' 2½" \$2.50**
(diploid)
x **C. Pearl Harbor, No. 10**
White. Fall.
- 801 Lc. George Baldwin 2½" \$2.50**
(Lc. Princess Margaret, #2 3½" \$5.00)
(tetraploid) 4" \$7.50
x **C. Enid 'Meteor'**
Dark lavender. Late summer, again in fall.
- 780 Lc. *Golden Star 2½" \$2.50**
(L. flava x C. dubiosa)
Small yellow; star-shaped. Winter.

DENDROBIUM

- 1069 Jacquelyn Thomas 'alba' 2" \$2.50**
From seed. White. Spring. 2½" \$3.50
- 1019 (phalaenopsis 'Schroederianum,**
alba' x Valley King 'J-24') 2" \$1.50
x **Jacquelyn Thomas, alba,**
'Orchidglade'
White. Spring, summer, and fall.
- 976 Alice Cummins 3" \$3.50**
(Mildred Kazumura 'Ivory' x
Gouldi 'albiflorum')
Large white flowers, similar to the Kazumura parent,
borne on long sprays. Spring.
- 957 (Bangkok 'alba' x White Foam)**
x **Gold Flush 3" \$3.50**
Yellow. Various.
- 953 Jacquelyn Thomas 'alba' 3" \$3.50**
x **phalaenopsis 'Schroederianum,**
alba'
White. Predominantly spring to early summer.
- 952 Jacquelyn Thomas 'alba' x**
Mauna Kea 3" \$3.50
White. Predominantly spring to early summer.
- 896 *John Pritchard x 3½"-4" \$7.50**
Lady Constance
Fine, large, dark flowers. Early winter.
- 893 Khaw Yeong Hong 3½"-4" \$7.50**
(polyploid)
(Valerie x Lady Hamilton 'Ruby', AM)
Very dark flowers of the finest quality. Other sizes
pg. 41.

* See cover photo

EPIDENDRUM

An excellent group of the Orchidaceae often overlooked by amateurs unfamiliar with the beauty of the flowers of the genus. Easy to grow, long lasting, and fragrant. Those with *E. Mariae* as a parent are small-growing plants.

E. BROWNIE
'MOIR'

E. ATROMARIAE

ONC. MEM. PEPITA DE
RESTREPO

- 1107 plicatum x C. bicolor** 2" \$1.00
2½" \$2.50

Bronze, heavy substance; long-lasting. Spring-summer.

- 959 alatum 'Fields' x Brownie** 2" \$1.00
'Moir' 3" \$2.50

Green and brown colors predominating. Spring.

- 958 Oncidiodes 'Wilcox' x** 2" \$1.00
Brownie 'Moir' 3" \$2.50

Green and brown colors predominating. Spring.

- 940 atropurpureum x** 2" \$1.00
Lc. Canhamiana 'alba' 3" \$2.50

Light mauve intergeneric hybrid. Spring to summer.

- 939 atropurpureum x** 2" \$1.00
L. elegans 3" \$2.50

Another mauve intergeneric hybrid. Spring to summer.

- 805 *Atromariae** 2½" \$2.50
(atropurpureum x Mariae)
3½"-4" \$7.50-\$10.00

Growth similar to *Mariae*. Flower intermediate between its parents. Other sizes pg. 42.

ONCIDIUM

- 1108 Retemeyerianum x** 3" \$5.00
microchilum

Spring.

- 1063 Dr. Schragen, SM SFOS x** 2" \$1.50
Retemeyerianum 2½" \$2.50

Spring to summer.

- 1062 Dr. Schragen, SM SFOS x** 2" \$1.50
Aurisassinum

Summer.

- 964 ampliatus 'majus' x Self** 2" \$1.50
2½" \$2.50

Selfing of a fine form of the species. Spring.

- 819 Mem. Pepita de Restrepo** 2½" \$2.50
(splendidum x luridum 3" \$3.50
'Marroni') 4" \$5.00

Upright stem with flowers of yellow, red, and brown. Excellent for cut flowers or pot plants. Truly exotic. Fall and winter. Other sizes pg. 44.

* See cover photo

PHALAEENOPSIS

Fine Whites

- 1022 Bobby Boy, No. 1 x** 2½" \$2.50
Snowbird 'Snowsheen', 3½" \$7.50
AM AOS
- 997 *Palm Beach x Belvedere,** 2½" \$2.50
No. 449 3½" \$7.50
- 979 Palm Beach x Snowbird** 2½" \$2.50
'Snowsheen', AM AOS 3½" \$7.50
- 978 *Palm Beach x Self** 2½" \$2.50
 3½" \$7.50; 4" \$10.00
- 970 Snowbird** 2½" \$2.50
x Grace Palm 3½" \$7.50
- 968 Arcadia** 3½" \$7.50
(Grace Palm x Chieftain)
- 948 *Palm Beach x** 3½" \$7.50
Vallamar, No. 1 4" \$10.00
- 972 Doritaenopsis Red Coral** 6" \$25-\$35
(Doritis pulcherrima x Phalaenopsis
Doris)

From light- to dark-pink with dark lip. Flowers borne on upright stems. Summer. Other sizes pg. 46.

RHYNCHOSTYLIS HYBRIDS

- 1021 *Rhynchostylis gigantea var. Rattana,**
1020 CCM-CBM AOS x
Rhynchostylis gigantea var. Petotiana,
CCM-CBM AOS

Hybrid between Orchidglade's two famous plants of Rhynchostylis (DENSIFLORA) which have received worldwide recognition. Progeny will vary from shades of pink to red. A splendid opportunity to acquire offspring of these exceptional parents at a most reasonable price. (See clarification top pg. 52.)

2" \$2.50

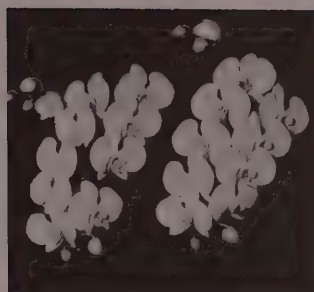

- 1112 Renanthera coccinea x Rhynchostylis**
violacea 3½" \$7.50

Probably colors of deep rose hues will develop from this hybrid as in cross #901. See pg. 52.

VANDA

- 1104 Manila x Jennie Hashimoto** 2½" \$2.00
 Pink and blue shades. 3" \$3.50
- 1103 Sanderiana x Piihonua** 2½" \$2.00
 Blue shades. 3" \$3.50
- 892 Kinau x Bill Sutton** 3" \$3.50
 Blue and pink shades. 5" \$7.50, 6" \$15.00

* See cover photo

PHAL. PALM BEACH

RHYNCHOSTYLIS
 GIGANTEA
 var.
 RATTANA
 CCM-CBM AOS

V. EISENHOWER

- 890 Chimey Walker x Bill Sutton, AM HOS** **2½" \$2.00**

Pink and blue shades. Photos pg. 48.

- 889 Jennie Hashimoto x Bill Sutton, AM HOS** **2½" \$2.00**
3" \$3.50
5" \$7.50, 6" \$10-\$15

Deep pink with brown ventral sepals.

- 872 Eisenhower 'Silver Medal', 2½" \$2.00**
AM AOS x Sanderiana

Yellow and brown shades. Photo pg. 34.

ASSORTED GENERA

ANGRAECUM:

- 711 eburneum** **4" \$5.00**
(from seed) **5" \$7.50**
 Other sizes pg. 9. **6" \$12.50, 7"-8" \$20.00**

- 747 *Veitchi (eburneum x sesquipedale)** **4" \$7.50**
5" \$10.00
 Other sizes pg. 9. **6" \$15, 7" \$25**

BRASSAVOLA:

- 1109 nodosa (from seed)** **2" \$1.00**
 Other sizes and photo pg. 10.

- 1014 B. nodosa, Orchid Ranch** **2" \$1.00**
Selected var. x **2½" \$2.00**
C. Henrietta Japhet 'Evelyn', HCC AOS
 Increased size and substance of B. nodosa. Summer.

BROUGHTONIA:

- 1000 *sanguinea 'Carmen Gauntlett',**
CBM AOS x **2" \$1.00**
sanguinea 'Orchidglade', 2½" \$2.50

From the appearance of the plants, we expect a yellow flower of a deeper color than the yellow parent. Various. Will probably flower in 2½"-3" pot.

CATTLEYTONIA:

- 954 Rosy Jewel** **2" \$1.50; 2½" \$2.50**
(Broughtonia sanguinea x
C. Bowringiana)

Dwarf habit; red to medium-purple flower one to two inches across. Fall. (See photo AOS BULLETIN 3/59.)

* See cover photo

ANGRAECUM EBURNEUM

BROUGHTONIA SANGUINEA

CYMBIDIUM:

- 881 Alpenrose** 5" \$7.50
(*Finlaysonianum* x *Alexanderi*
'Westonbirt', tetraploid)

A remake of the English hybrid using the tetraploid form of *Alexanderi* 'Westonbirt'. Our ALPENROSE has proven to be an excellent 'warm-growing' Cymbidium.

- 938 Finlaysonianum x** 6" \$10
Grammatophyllum 7" \$15
Measuresianum

Vigorous plants to produce extremely interesting flowers during spring and summer.

GRAMMATOPHYLLUM
MEASURESIANUM

DIACATTLEYA:

- 950 Chastity** 3" \$5.00
(*Diacrium bicornutum* x *C. granulosa*)

A bifoliate with white to green and pink flowers resembling *Diacrium* in form. Spring (See photo AOS BULLETIN 3/59.)

- 992 Fantasy** 2" \$1.50; 2½" \$2.50
(*Diacrium bicornutum* x
C. Guatemalensis)

Another intergeneric similar to #950. Spring.

DIACRIUM BICORNUM

DIACRIUM:

- 838 bicornutum** 3" \$3.50

Fragrant, white, star-like flowers; lip lightly spotted with crimson. Winter. (Other sizes pg. 6.)

EPICATTLEYA:

- 651 Frances Dyer**
(*C. Bowringiana* x *E. fragrans*)
3" \$5.00; 3½" \$7.50; 4" \$10.00

Best described as 'plum color'. Slightly larger than *fragrans*, but same shape and habit of inflorescence. Summer.

EPICATTLEYA FRANCES DYER

PERISTERIA:

- 870 elata x Self** 4"-5" \$5.00

"Dove" or "Holy Ghost" Orchid. Waxy-white, globuse flowers, center parts resembling a dove. Summer and early fall. (Other sizes and photo pg. 7.)

SCHOMBODIACRIUM:

- 962 Diacrium bicornutum x** 2" \$1.00
Schomburgkia undulata 2½" \$2.00

Another intergeneric.

Multi-flowered racemes of unusual inflorescence. Pinks, lavenders and odd shades. Summer.

We grow a wide variety of Ornamental Foliage Plants for the Wholesale and Retail Trade. If you are a fancier of plants for interior decoration, we shall be glad to make quotations to your specifications.

FOLIAGE PLANTS

(Continued from pg. 28.)

MAIDEN HAIR FERN

(Adiantum) Generally have several varieties.

4" pot \$1.50

AECHMEA FASCIATA

Beautiful selected white and green banded type; grown from seed. Pink with blue bracts. Flowers last several months.

\$2.50-\$3.50

EXOTICA 3 (1961), by A. B. Graf

Pre-publication \$29.50

On publication \$35.00

See BOOK Section, pages 53 and 54.

IVY TREE

Having seen these Ivy Trees used effectively in Berlin, we immediately started producing them for the wholesale trade for the coming season. The plants are grafted and require 18 months of constant care and training to produce this unusual habit of growth. A real conversation piece in any home or greenhouse!

\$15-\$20-\$25

* PRECIOUS ORCHID POTS HANDCRAFTED — SIGNED — ORIGINALS

— A Jones and Scully "Exclusive" —

Special Orders to YOUR Specifications Accepted

* Each of the PRECIOUS POTS is an original creation designed under our direction by three of Miami's outstanding artists. Helen Steele, Juanita May, and Gerry Sparks, talented ceramists and orchid hobbyists as well, have all been recognized in their field and received many awards for their works. See Pg. 63.

CYPRIPEDIUM

Flowering-size Plants — Warm-Growing Varieties (60° F.)

"Lady Slipper Orchids" are easy to grow. Their rich colors last for months in perfection.

REINALDO MIRABEL, OUR CYP. GROWER

CYP. MAUDIAE 'MAGNIFICUM'

- | | |
|---|-----------------------|
| ALMA GEVAERT
(<i>Lawrenceanum</i> 'Hyeaum' x <i>Maudiae</i>) | \$10-\$15 |
| A nice form of green and white; distinct shape from <i>Maudiae</i> . Tessellated foliage. | |
| AUREUM 'SURPRISE' (<i>nitens</i> x <i>Spicerianum</i>) | \$10-\$15 |

| Soft purple overlayed light brown; plum veins on white dorsal, green at base. | |
| CALLOSUM Thailand | \$10 |
| White maroon-striped dorsal, green base. Petals pale green; pouch brown-purple. | |
| CHARLES CANHAM (<i>villosum</i> x <i>superbiens</i>) | \$10 |
| Off-white dorsal, dark purple at center, base striped. Petals deep purple blending to tan; purple pouch. | |
| ELINOR (<i>selligerum</i> 'majus' x <i>superbiens</i>) | \$10 |
| White dorsal green-tinted and veined. | |
| EUNICE CULVER | \$10-\$15-\$20 |
| (Sunbeam 'Golden Splendor' x Hellas 'Westonbirt') | |
| Predominantly yellow, some with spots. Winter. | |
| FRANCONIA (<i>callosum</i> 'Sanderæ' x <i>callo-Rothschildianum</i>) | \$10 |
| A bold flower; broad petals heavily spotted with brownish-black on green ground. | |
| GREENHORN (<i>Diversion</i> x <i>Roger Coulson</i>) | \$15 |
| Clear green colors; some have white on dorsal. Winter. | |
| HARRISIANUM (<i>barbatum</i> x <i>villosum</i>) | \$7.50 |
| Brown. Winter. | |
| MAUDIAE 'MAGNIFICUM' | \$7.50-\$15 |
| (callosum 'Sanderæ' x <i>Lawrenceanum</i> 'Hyeaum') | |
| A favorite. Apple-green pouch; green-veined white dorsal. Handsome tessellated foliage. Usually flowers twice a year. | |
| PACIFIC OCEAN (<i>Farnmoore</i> x <i>Langley 'Pride'</i>) | \$15 |
| Large, bold flowers; dorsal white with spots. Winter. | |
| RADIOSUM (<i>Lawrenceanum</i> x <i>Spicerianum</i>) | \$10 |
| Striking dorsal sepals—white with mauve-purple lines over the chief veins. | |
| REEZY (<i>Agnes de Burc</i> x <i>Denehurst 'Surprise'</i>) | \$10-\$15-\$20 |
| Predominantly yellow; dorsal of some margined white. Winter. | |
| T. B. HAYWOOD (<i>superbiens</i> x <i>Druryi</i>) | \$10 |
| Veining of upper sepals and petals light purple. | |

DENDROBIUM

DISTINCTIVE MODERN TYPES

Have you discovered the unusual forms and exciting colors embraced by this modern type of breeding in Dendrobiums? Their exquisite flowers in a wide variety of hues are borne on long, graceful sprays to brighten your greenhouse month after month during the winter season, and some plants will flower throughout the year. Ideal for patio planting, for they can be grown outdoors in full sun during warm weather.

TOM EASTON, grower, examining
Evergreen Dendrobiums

Flowering sizes—6" pots from \$15

Specimens priced according to size and quality.

- 703 ALAN ZANE (Ethel Kawamoto x Hula Girl)**
Fine parentage; yellow to bronze combinations.
- 709 GERALDINE GOO (Janice Tanaka x Gouldi 'Blue')**
Colors range from dark yellow to bronze.
- 708 KAKELA (undulatum x Gouldi 'Blue')**
Dark purple to bronze colors.
- 702 PRINCE AKIHITO (May Neal x Gouldi 'Blue')**
Most vigorous hybrid using the fine blue form of Gouldi. Abundant flowers; yellow to red-bronze with darker tips.
- 704 SHARON TAKIGUCHI (Joan Tani x Hawaii Nui)**
Intense lavender flowers on long sprays.
- 707 ETHEL KAWAMOTO, AM HOS X GOULDI**
Deep yellow with chocolate tips.
- 710 ETHEL KAWAMOTO, AM HOS X GOULDI 'BLUE'**
Greenish-yellow with dark tips.
- 705 GRACE GOO X GOULDI 'BLUE'**
Dark lavender to yellow-bronze.
- 706 OWEN (yellow) X GOULDI**
May vary from yellow to blue.

(LIMITED QUANTITY OF PROPAGATED OFFSHOOTS IN 4"-5" POTS; CANES 15"-24" \$5-\$10 Each)

Our loss is your gain—but let's see who REALLY reads our Catalog! Monthly, for one year, we will ship via *PREPAID AIR* three of our finest-quality Seedlings in 2" pots of various genera for a total of \$5 per month. Just send your check for \$60 with your order and mention this offer.

Since the physical appearance of a plant is not indicative of the potential quality of the resulting flower, it is important to trade with a first-class firm of unquestionable integrity. By so doing, you are assured of receiving full value AND you will benefit from the wisdom and experience of those who deal exclusively in the finest. We take pride in the quality of ALL the plants we grow, and you will be equally proud to embrace any of them in your collection.

PENDULOUS DENDROBIUMS

— Flowering-size Plants

PIERARDI Philippines

Keiki in 3" pot \$3.50

In 5 $\frac{3}{4}$ "-sq. Mexi-Fern Basket \$15

Pendulous canes to 5' long bearing hundreds of pale, semi-transparent, rosy-mauve flowers in late winter or early spring. Deciduous, of easy culture. Should be hung from pot or basket.

SUPERBUM 'DEAREI' X SELF (No. 571)

A lovely, white-flowering Dendrobium with pendulous canes. Flowers appear in the spring on canes made the previous summer.

In 5 $\frac{3}{4}$ "-sq. Mexi-Fern Basket

\$15

D. SUPERBUM 'DEAREI'

TIPS— Among the most decorative of the Orchidaceae, Dendrobiums encompass some of the finest of the spray types. Although of easy culture, for successful flowering, one must cater to the needs of each species. Cattleya-house conditions are ideal for Dendrobium phalaenopsis and its varieties. Give maximum amount of sun short of burning; give ample water while in growth. While dormant, water only enough to prevent shriveling. Apply weak applications of liquid fertilizer when in growth. Types having D. phalaenopsis as a parent are variable in flowering season, but flowers are long lasting. (Seedlings pg. 32.)

INDIAN DENDROBIUMS

— Flowering-size Plants

AGGREGATUM 'MAJUS'

India

The bright yellow flowers of this little Dendrobium are most welcome in any greenhouse during the spring months. It is a small plant—pseudo-bulb 3"-5" long, leaves about the same. The profuseness of blooms dwarfs the plants when in flower.

\$7.50-\$10

D. AGGREGATUM

DENSIFLORUM India

\$10

Flowers about 2" across, orange-yellow, the lip the darker, downy. Spring.

LODDIGESI India

\$2.50

A miniature. Small, round rosy-mauve flowers; labellum fringed, deep yellow in center banded by white and tipped with purple. Spring.

Watch our ads in the American Orchid Society BULLETIN!

DENDROBIUM PHALAEOPSIS TYPES — Flowering-size Plants

JACQUELYN THOMAS

(Gouldi x phalaenopsis)

12"-15" canes \$10

16"-24" canes \$15

24" canes or taller from \$20

One of the freest-flowering hybrids we know of. Flowers are extremely decorative and will remain on the plant for at least 3 months. These unusual qualities make this an ideal hybrid for cut flowers or for the amateur grower.

JACQUELYN THOMAS 'ALBA' X PHALAEOPSIS 'ALBA'

\$10-\$15-\$20

We expect this hybrid to produce a wonderful strain of D. Jacquelyn Thomas 'Alba'. The latter is one of the most floriferous of the Dendrobiums with flowers lasting several months on the plant. In our climate, they have flowers every month of the year—their peak season being May-June and again August-October. We realize that a small percentage of these seedlings may have colored flowers and sell them only with this understanding.

D. JACQUELYN THOMAS

D. KHAW YEONG HONG

KHAW YEONG HONG (No. 893) A polyploid.

\$7.50-\$10

(Valerie x Lady Hamilton 'Ruby', AM AOS)

One of the finest. Exceedingly dark flowers; large and round, borne on arching sprays. Late fall and early winter. Other sizes pg. 32.

LOUIS BLERIOT (superbiens 'Goldei' x phalaenopsis)

\$15

Fine, dark, selected variety. Fall and winter.

PHALAEOPSIS 'DELICATA'

\$10

Flowers are produced on sprays from the terminal end of the long canes. Background white with lavender to purple suffusion on sepals and petals. September-January.

PHALAEOPSIS 'DELIGHTFUL'

\$10

Flowers very light; background white with less intense coloring than the 'delicata' variety. September-January.

RED WINGS (d'Albertisi x Johannis)

\$15

Red and white form; showy. Flowers most of the year.

EPIDENDRUM

Flowering-size Plants

E. ATRONICEUM

E. MARIAE

ATROMARIAE (*atropurpureum* x *Mariae*) (#805) **\$10-\$12.50**

See cover photo. Green to brown, light lavender lip. Very fragrant. Spring to summer.

ATRONICEUM (#745) **\$12.50**

(*atropurpureum* x *phoeniceum*)

Intermediate between the parents. Graceful sprays. Spring.

ATROPURPUREUM Panama **\$7.50-\$10-\$15**

Flowers, larger than the type, produced on many-flowered racemes. Brown with lighter borders; lip reddish-mauve. Spring.

CILIARE Tropical America **\$7.50-\$10**

Chartreuse; large white lip frilled and fringed. Flowers borne from apex of growth, as with bifoliate Cattleyas. Make handsome specimens. Early winter.

FALCATUM (syn. *Parkinsonianum*) **Mexico** **\$15**

A handsome species of pendulous habit. Long-lasting chartreuse flowers tinted olive-brown; lip orange-yellow. Summer.

FRAGRANS Mexico **from \$5**

Exceptional for its pleasant perfume. Ivory overall; lip uppermost, streaked crimson. Summer and fall.

MARIAE Mexico **\$7.50**

A charming but little-known species. Chartreuse; lip paper-white, pale green toward base. Summer.

PHOENICEUM "The Chocolate Orchid" Cuba **\$15**

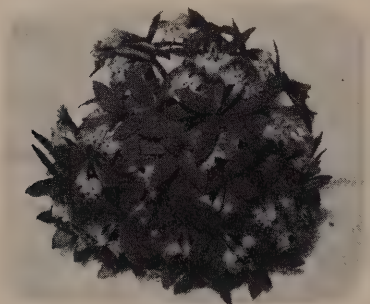

Flowers of brown and yellow tones on long stems. Chocolate scented. Early summer.

RADICANS Central America **15"-18" tall \$1**

Brilliant orange-red flowers produced in heads. Can be trained against a wall and grown outdoors in full sun during warm season. Flowers for months at a time. Reed type. Spring.

STAMFORDIANUM Central America **\$7.50-\$10**

A bifoliate type similar to *E. ciliare* in growth. Flower spikes appear at base of bulbs in long sprays of greenish-yellow flowers with dark spots. Spring.

E. RADICANS

E. ATROPURPUREUM

The hybrids offered throughout our catalog represent the finest—the results of years of research by leading hybridists of the world. Here at Orchidglade, new acquisitions of exceptional Orchids in many genera—both hybrids and species—further stimulate our active breeding program to enable you to keep your collection constantly improving.

ONC. AMPLIATUM

ONCIDIUM

This is a most satisfactory genus for the amateur to grow because the plants require but little attention and they will thrive under many different conditions. Most of the species require a great deal of light—such as Cattleyas—but a few of the species need much more shade—as with *Onc. Papilio* and some of the miniatures. Most of the *Oncidiums* prefer to be a little on the dry side, but *Onc. papilio* is an exception to this for it seems to require more moisture. See pg. 33 for Unflowered Seedlings.

ONC. CARTHAGINENSE

Flowering-size Plants

AMPLIATUM 'MAJUS' Panama **\$10-\$12.50-\$15**
Many-flowered, arching, branched scapes. Canary-yellow 'dancing girls' $1\frac{1}{2}$ " in diameter. Sepals blotched mahogany. One of the finest of the *Oncidiums*. Spring. Others pg. 33.

ANSIFERUM Costa Rica **\$12.50**
A graceful, interesting plant; unusual type of growth. Yellow flowers borne on branched stem and loosely arranged. Spring.

CARTHAGINENSE Tropical America **\$10**
Delicate pinkish-lavender flowers borne on 2'-3' sprays. Decorative green foliage with maroon spots, similar to that of *lanceanum*, typical of this species. Late spring.

CAVENDISHIANUM Mexico **\$12.50**
Heavy foliage with upright-growing stem of yellow flowers. Winter.

CEBOLLETA Central America **\$5**
A terete type. Small brilliant yellow flowers, maroon-spotted on the back. Spring.

GOLDEANA (flexuosum x sphacelatum) (#882) **\$7.50-\$10**
A combination of two beautiful yellow sprays.

JONESIANUM Brazil **On Mexi-Fern Slab \$12.50**
Very elegant in character. Straw-colored flowers, blotched with sepia borne on drooping racemes. Lip pure white. All parts wavy. Long lasting. Fall and early winter.

LANCEANUM (from seed) **\$7.50-\$15**
Heavy-textured chartreuse flowers spotted with mahogany; long-lasting. Leaves large, light green, and peppered with dark dots. One of the finest species of the genus. Summer.

MACULATUM Mexico **\$10**
Two-inch flowers of chartreuse heavily blotched chestnut-brown; lip white, yellow at apex. Winter.

ONC. LANCEANUM

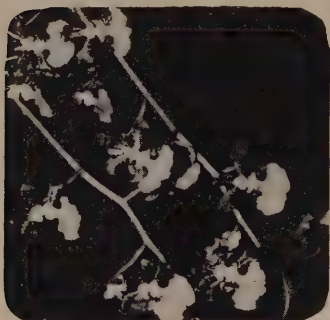

ONC MACULATUM

(cont.)

MEM. PEPITA DE RESTEPO (No. 819)**\$7.50-\$10****(splendidum x luridum 'Marroni')**

An EXOTIC new hybrid. Magnificent flowers in varying shades of yellow, red, and brown borne on upright stems. Excellent as cut flowers; a beautiful pot plant. For summer, fall, and winter blooming.

ONC. MEM. PEPITA DE RESTEPO

ONC. UNIFLORUM

MICROCHILUM Guatemala**\$12.50**

Beautiful dark green foliage; upright growing to 12" tall. Sprays of flowers are yellow and brown. Summer.

NANUM Brazil**\$10**

Small yellow flowers spotted with red; lip spreading, bright yellow. Flowers borne on branched drooping scapes. Summer.

ONUSTUM Ecuador**\$7.50-\$10**

Attractive species of dwarf habit; equitant foliage. Comparatively large bright yellow flowers borne on arched scapes. Fall.

PAPILIO West Indies**\$7.50-\$10**

Habit resembles that of Kramerianum. Dorsal sepal and petals reddish-crimson, lateral sepals chestnut-red. Lip canary yellow broadly margined with bright red. Various.

PULCHELLUM**\$3**

A miniature type. Flowers white to shades of pink and lavender. Spring and summer.

SPHACELATUM Guatemala**\$7.50-\$10**

Small, yellow flowers on long racemes; one plant will produce several hundred flowers. Easy culture and ideal to grow outdoors in warm climate. Usually flowers for Mother's Day.

SPLENDIDUM Central America**\$10-\$15**

This Oncidium produces the "Dancing Girls." Lovely yellow flowers of good size. February and March.

STIPUTATUM PanamaOn Mexi-Fern Slabs **\$10**

Terete-leaved. Yellow flowers borne on pendulous racemes. Spring.

TETRAPETALUM Jamaica**\$3**

A dwarf-growing species. The plant itself is not over 3"-4" tall. Flowers are of the palest lavender, borne on stems about 15" long. Flowers several time a year.

TRIQUETRUM Jamaica**\$3**

A dwarf Oncidium. Flowers about 1" vertically, about 12-15 on a stem. Labellum distinct in shape (cardate-ovate) from Onc. pulchellum. White background color spotted with purple, crest orange-yellow.

UNIFLORUM Brazil**\$7.50**

Lovely yellow flowers borne singly on stems about 10" tall. Small-growing species of compact growth. Fragrant. Summer.

Polyploidy

A BRIEF EXPLANATION

Micro-photo of chromosomes
as they appear in a single cell
Count them if you can!

C. CHARYDBIS 'ORCHIDGLADE'
(tetraploid)

The diploid (normal) number of chromosomes varies from one genus to another. To cite an instance however, diploid Cattleyas have 40 chromosomes. Generally speaking, the following can be expected to develop from a cross between different ploidy:

Diploid x Diploid	= Diploid = 40 chromosomes
Diploid x Tetraploid	= Triploid = 60 chromosomes
Tetraploid x Tetraploid	= Tetraploid = 80 chromosomes
Tetraploid x Triploid	= Tetraploid or Pentaploid = 80 or 100
Pentaploid x Diploid	= Unknown due to limited crosses.

Diploids:	Good growers, but less outstanding for quality.
Triploids:	Good growers and good producers; fine quality.
Tetraploids:	Flowers of excellent quality; fine parents to produce tetraploids or triploids.

In instances where the Ploidy of our plants is known through actual chromosome count, we have indicated the fact. We are reasonably certain that a great many of our other offerings are also polyploidy, and will publish the information when it is available. Chromosome counting is a time-consuming tedious task requiring the patience of a dedicated cylogoist, so the process is a slow one.

On request, *ORCHIDS FOR THE CONNOISSEUR*, our periodic listings of Cattleyas par excellence, will be sent as available to Collectors interested in *ESTABLISHED, Flowering-Size DIVISIONS* of Orchids of this calibre.

We are always interested in adding to our Connoisseur Collection, so shall welcome your offerings of Cattleyas of Superlative quality.—rms.

Flasks - Transplants

C. *DOWIANA var. AUREA, ORCHIDGLADE STRAIN

A diploid and a PROVEN Parent.

Recommend shipment bare root in plastic bags, via Air, F.O.B.,
for delivery Fall 1961.

100 Plants (approx.)—\$20.00

(Seedlings will be available in 2" pots Summer 1962.)

* See cover photo.

We take pride in the Quality of ALL the plants we grow, and you will be equally proud to have any of them in your collection.

PHALAENOPSIS

Flowering-size Plants

In addition to the plants listed here, we have many mature hybrids of both White and Pink Phalaenopsis but insufficient quantities to list individually. These can be supplied from \$12.50 to \$35 depending upon the size of the plants and the quality of the flowers. Won't you tell us what you would like to have and let us select your plants for you? Please see the listing of fine Phalaenopsis Seedlings on page 34.

WHITE HYBRIDS

188	DORIS (Elisabethae x Katherine Siegwart)	\$15-\$25
698	MIAMI (Bobby Boy x Springtime)	\$15-\$25
---	SERENITY (Doris x Thos. Tucker)	\$25-\$35
---	VALLEBEAUTY (Grace Palm x Nivea 'Vallemar', AM)	\$15-\$25
---	VALLEHIGH (Dos Pueblos, AM x Grace Palm, AM)	\$15-\$25
---	VALLEPALM (Vallemar, AM x Grace Palm, AM)	\$15-\$25
714	BOBBY BOY X VENUSTUS, No. 334	\$15-\$25
971	BOULDERI X ADOLPH FIELD	\$15-\$20
748	DORIS X ELDORA (Some may be pink)	\$10-\$20
867	ELISABETHAE X BLIZZARD	\$10-\$20

PINK HYBRIDS

CLARA KNIGHT (Marmouset x Doris)	\$25-\$35
----------------------------------	-----------

One of the loveliest forms of pink Phalaenopsis. This hybrid contains some of the finest pinks known. Here you have an opportunity to acquire what well may be prize-winning pink Phalaenopsis at a remarkably reasonable price.

PHALAENOPSIS CLARA KNIGHT

PHALAENOPSIS LUEDEMANNIANA

906 } SUSIE DARLIN' (Doris x Pink Sunset)	\$15-\$25
907 }	
972 DORITAENOPSIS RED CORAL	\$25-\$35
(Doritis pulcherrima x Phal. Doris)	

Light to deep pink; dark lip. Upright stems of flowers. Summer. (Larger plants priced accordingly.) Seedlings pg. 34.

UNUSUAL COLORS

---	GOLDEN CHIEF (Chieftain x manni)	\$25-\$35
	Cream to yellow.	
---	GOLDEN LOUIS (Doris x manni)	\$15-\$25
	Cream to yellow. To flower for first time.	
---	HERMIONE (Luedemanniana x Stuartiana) Spotted.	\$10-\$15
---	VALENTINE'S DAY (Hymen x amabilis) Sunset shades	\$25
975	PURPLE HEART	\$25-\$35
	(Robert H. Montgomery x violacea)	
---	VALENTINE'S DAY (Hymen x amabilis) Sunset shades	\$25

Amateurs—and "Beginners"—should remember that the same time and effort is necessary to flower inferior Orchids as is required to flower good ones. Don't settle for second-best; you'll be disappointed if you do!

Phalaenopsis Stem Propagations

Occasionally, *Phalaenopsis* propagate by offsets, but this is not a dependable occurrence. Therefore, we have initiated a program of propagating some of our outstanding Hybrids and Species by STEM Propagation. These are grown in flasks the same way that Orchid seed is germinated. Through this program, we are pleased to be able to offer a limited quantity of fine *Phalaenopsis* of known quality.

During the course of the year, the following Vegetative STEM Propagations will be available. Prices quoted are for plants in Flasks — or established in 2½" or 3" pots — whichever we have. Your correspondence is invited. LIMITED QUANTITIES.

CAST IRON MONARCH 'ROSLYN', AM AOS ('51, 85) White.	\$100.
CORNU-CERVI Greenish-yellow.	\$25.
LUEDEMANNIANA (typical) Medium dark.	\$7.50-\$10.
LUEDEMANNIANA, XV Medium dark.	\$7.50-\$10.
LUEDEMANNIANA 'DORP' Yellow.	\$15.
LUEDEMANNIANA 'HIEROGLYPHICA', No. 3, CCM AOS ('60, 87) Cream.	\$15.
LUEDEMANNIANA 'OCHRACEA' Yellow.	\$15.
LUEDEMANNIANA var. PULCHRA Dark.	\$10.
LUEDEMANNIANA var. PULCHRA 'MOIR' Dark.	\$10.
LUEDEMANNIANA var. PULCHRA 'PINE' Dark.	\$10.
LUEDEMANNIANA var. PULCHRA 'SHAFFER' Dark.	\$15.
LUEDEMANNIANA var. PULCHRA 'TUCKER'S' Dark.	\$15.
MANNIPAM 'CANARY' Yellow.	\$50.
MOONGLOW 'FRECKLE FACE', HCC AOS ('59, 75) Creamy-yellow, heavily spotted.	\$35.
MOONGLOW 'LIPSTICK', AM AOS ('59, 81) Creamy-yellow, red spotted. Red lip.	\$100.
MOONGLOW 'MIAMI', AM AOS ('59, 81) Ivory, lavender spotting; lavender lip.	\$75.
MOONGLOW 'ORCHIDGLADE', AOD AOS, HCC AOS ('58, 77) Creamy-yellow.	\$50.
PALM BEACH, No. 2 White.	\$50.
PALM BEACH, No. 3 White.	\$50.
ROSEA White, flushed rose-purple.	\$10.
SERENITY, FINE VAR. White.	\$25.
SPECIOSA 'ORCHIDGLADE', SM SFOS ('60, 84) Red.	\$50.
SPECIOSA 'ORCHID RANCH' Red.	\$35.
ZADA, No. 1 — Fine dark pink variety.	\$35.
ZADA, No. 2 — Fine dark pink variety.	\$35.
ZADA, No. 3 — Fine dark pink variety.	\$35.
ZADA, No. 4 — Fine dark pink variety.	\$35.
ZADA, No. 5 — Fine dark pink variety.	\$35.
ZADA, No. 6 — Fine dark pink variety.	\$35.
ZADA 'ORCHIDGLADE' Pink.	\$100.

Propagations of other fine varieties of *P. Moonglow* are priced from \$20-\$35. Kodachromes of many of the above offerings are available for viewing by prospective buyers.

"Orchids Are Gracious Living — Wear Them."

VANDACEOUS ORCHIDS

Flowering-size Plants

V. BILL SUTTON

V. CHIMEY WALKER

STRAP-LEAF VANDAS

- | | | |
|------------|---|------------------|
| 520 | ALICE FUKUNAGA
(Mem. T. Iwasaki x Sanderiana)
Unusual colors of green, brown, yellow. | \$20-\$35 |
| 518 | BILL SUTTON (Sanderiana x Manila)
Fine-shaped deep pink flowers; similar to V. Sanderiana. | \$20-\$35 |
| 429 | CHIMEY WALKER | from \$25 |
| 504 | (Flammerolle x Sanderiana)
Flat flower of fine form. Color varies from pink to salmon and raspberry. | |
| 428 | DENISANDER
(Denisoniana 'Hebriaca' x Sanderiana)
Combination of brown colors—some have spot of pink on the sepal. | \$15 |
| 547 | EARNEST FUJINAGA
(Caroline Robinson x Sanderiana)
An excellent producer with a very wide range of color combinations—yellow and green predominating. | \$15-\$40 |
| 608 | ELLEN NOA (Sanderiana x Dearei)
One of the best yellow-colored Vandas. Heavy substance. | from \$25 |
| 484 | FRANKENSTEINIANA (Herziana x coerulea)
Free-flowering hybrid with blue to grey-blue flowers of the Herziana type; very desirable. | \$15 |

VANDA HONOLI

427 HONOLI (Sanderiana x Herziana)

We grow many of this hybrid for cut flowers, because of the wide variation in color and its free-flowering habit. Mature plants will flower 6-7 times a year. Variable color, from blue to raspberry.

\$15--\$25

739 JENNIE HASHIMOTO
(Onomea 'Neva Mitchell',
AM x Sanderiana)

One of the finest of the flat-type flowers. Colors are in a wide range.

\$40

VANDA JENNIE HASHIMOTO

516 KALALAU (Paki x Ellen Noa) \$15-\$20

Small-type Vanda; light yellow beautifully spotted with maroon. Usually 5-6 flowers to the stem.

551 LAUKAPU \$15

(Sanderiana x Burgeffi)

This cross should give us Sanderiana-type flowers of excellent quality. White, pink and brown markings predominating. Free flowering.

566 LAUKAPU (Burgeffi 'Pink Best' x \$20
Sanderiana, FCC)

To flower in a year **\$7.50-\$12.50**

Same as No. 551, only different parents.

493 LUZONICA
(from seed)

White, heavy flower with flushed magenta-purple markings and purple lip. Species from Luzon, Philippines.

\$15

We prefer the use of VITA-BARK or MEXI-FERN for the culture of Vandaceous plants. Please refer to Orchid Supplies pg. 55.

VANDA LUZONICA

501 MANILA (Luzonica x Sanderiana) \$15-\$25

One of the favorite hybrids producing pink flowers.

426 MARY FOSTER (Merrilli x Sanderiana) \$20

Medium-size flower—red in color.

524 MEM. FAY KAZUE NITTA \$15-\$25

(Ellen Noa x Burgeffi)

Cream with brown spots.

545 OHUOHU \$25-\$40

(Clara Shipman Fisher x Sanderiana)

One of the best of the new hybrids. Colors mostly in shades of pink and brown.

(cont.)

For a host of benefits, Join the AMERICAN ORCHID SOCIETY!

503 ONOMEA
(Sanderiana x
Rothschildiana)

One of the best Vandas. Flowers are of excellent shape; color varies from mauve to blue.

\$25-\$40

VANDA ONOMEA

PARISHI Thailand

from **\$20**

A dwarf, stout-growing species; very handsome and distinct, somewhat resembling a Phalaenopsis. Flowers produced on stiff erect scapes. Greenish-yellow, boldly spotted mahogany; front lobe of lip pale magenta narrowly margined with white.

606 } ROTHSCHILDIANA
817 } (Sanderiana x
818 } coerulea)

One of the favorites in the blue colors. Large flowers bloom profusely during the cooler season.

Unflowered — **\$10-\$15-\$20**

Flowering size — **\$25-\$40**

See cover photo.

VANDA ROTHSCHILDIANA

556 SANDERIANA Philippines

\$20-\$35

A magnificent orchid. Flowers large, often nearly 5" across and almost flat. Upper sepal soft rose suffused with white; the lower two larger, tawny-yellow, crossed and recrossed with prominent, sanguineous-red veins. Petals smaller than sepals, colored like the upper sepal, but with red-spotted blotch near the base. Lip comparatively small, of remarkable structure; dull tawny-yellow streaked with red. Late summer and various.

655 SANDERIANA

\$25-\$50

(Sanderiana 'Kono #8', FCC AOS x Sanderiana 'Nishimura')

Browns, pinks, whites.

548 WAIMEA (Ohuohu x Rothschildiana)

\$25-\$40

Excellent-shaped, large flowers; color will vary from pink to blue.

356 WALTER FUJIKAMA
(Manila x coerulea)

\$25-\$30

Lovely blue shades.

VANDACHNIS PREMIER

(Arachnis moschifera (Flos-aeris) x Vandopsis lissochiloides)
 Stunning. Yellow with mahogany bars. A scorpion-type. Summer.

Flowering size—\$25

SEMI-TERETE VANDAS

Flowering-size Plants

- 815 } **LEILANI (Nora Potter x Sanderiana)**
902 } Color variable.

\$10-\$15

- **MEVR. L. VELTHUIS**
(**Sanderiana x**
Agnes Joaquim)

A fine strain of this hybrid. Our selection is propagated by vegetative means, assuring you of fine uniform quality.

15"-18" rooted cuttings.

\$10

VANDA MEVR. L. VELTHUIS

- 678 **NELLIE MORLEY**
(**Emma van Deventer x Sanderiana**)

Various shades of red.

\$10-\$15

- **TERES 'ALBA'**

RENANTANDA JACK WARNE

If you wish additional information on any of our plants, or if we can help you in any way on matters of culture, we shall be glad to hear from you.

RHYNCHOSTYLIS HYBRIDS AND SPECIES

Nomenclature for the Orchidaceae embracing *Ascocentrum*, *Saccolabium*, and *Rhynchostylis* is not certain in many instances. What was classified as *RHYNCHOSTYLIS DENSIFLORA* within the past few years (formerly known as *Saccolabium giganteum*), we are now advised has been reclassified as *RHYNCHOSTYLIS GIGANTEA*—(7/61). See forthcoming A.O.S. BULLETIN.

RHYNCHOSTYLIS GIGANTEA var. PETOTIANA

RHYNCHOSTYLIS COELESTIS Thailand

\$15

(Syn. *Saccolabium coeleste*)

Habit similar to *S. curvifolium*. Densely flowered racemes of white flowers; sepals and petals tipped indigo-blue, apical half of lip the same color. (Flowering size.)

RHYNCHOSTYLIS GIGANTEA var. ILLUSTRIS Thailand

\$25

(Syn. *Saccolabium giganteum* var. *Illustris*) (in 10" Redwood Baskets)

The fascinating 'Foxtail Orchid'. Flowers larger than the type, colors richer—white spotted at the base with violet; lip purple. Sweet-scented. Dec.-Jan. (Flowering size.)

RHYNCHOSTYLIS GIGANTEA, *SAGARIK'S STRAIN (gigantea var. Rattana x gigantea 'Rapee No. 1')

—OUR IMPORT FROM THAILAND—

The hybridizer, Rapee Sagarik, tells us that 80% of the plants he has flowered out of this cross have been of a red as dark as, or darker than, our widely-sought plant of *Rhynchostylis gigantea* (*DENSIFLORA*) 'Rattana', which is one of the rarest and most beautiful plants we have ever seen; truly a treasure. SEE PHOTO FRONT COVER.

Unflowered—\$150.

—IN 5¾" MEXI-FERN BASKETS—

(For delivery after September 1961)

RHYNCHOSTYLIS GIGANTEA from seed

2" pots \$2.50

(gigantea var. *Rattana*, CCM-CBM AOS x gigantea var. *Petotiana*, CCM-CBM AOS)

Hybrid between Orchidglade's two famous plants of *Rhynchostylis* (*densiflora*) which have received world-wide recognition. Progeny will vary from shades of pink to red, we believe. A splendid opportunity to acquire offspring of these exceptional parents at a most reasonable price. SEE PHOTO FRONT COVER and WHITE form above.

* Mr. Sagarik is orchid lecturer in the Dept. of Horticulture, Kastetsart University, Bangkok. A hybridizer and grower of some repute, also a collector of selected species. See AOS BULLETIN for his technical articles.

BOOKS

7th Edition—THE ORCHID GROWERS MANUAL Reprints (1961) \$28.00 by B. S. Williams and H. Williams (1894)

World-renown for its valuable information. Has been rarely available during the past decade at relatively prohibitive prices. The edition of reprints is STRICTLY limited.

HYBRIDIZER'S STUD LIST, published by Jones & Scully, Inc. \$12.50

A volume providing a page on which to record pertinent information for a permanent record of each of 500 crosses an individual may make; parents and their respective cultivars, space for descriptions of each, ploidy, color, flowering season, dates of hybridization, date of pod maturing, date of seed planting, availability of Kodachromes and Black-and-white Photos; also space for laboratory information. Volume is 8½" x 11" printed on 60# non-ink-absorbing stock, maroon mildew-resistant binding, stamped with gold lettering on cover and spine.

SANDER'S COMPLETE LIST OF ORCHID HYBRIDS (thru 1945) \$25.00

Includes all hybrids known from the beginning of registration to 1/1/46. Other editions will be available this year which will list the hybrids registered FROM 1/1/46. The volume offered is necessary in order to have a COMPLETE record of all known hybrids.

SANDER'S ADDENDA

The first of the two volumes to succeed the above offering will be available September 1961, we are advised as we go to press. Write us for further information.

S.F.O.S. REGISTER OF AWARDS & JUDGING HANDBOOK \$3.00

Lists all awards given to orchids by the South Florida Orchid Society from May 1949 thru December 1959 and includes plant descriptions. Also includes regulations of general interest concerning the judging of orchids by the S.F.O.S. and Point Scales used by the A.O.S. This register is important to all CONNOISSEUR patrons and judges.

DRAWINGS OF FLORIDA ORCHIDS, by Blanche Ames with explanatory notes by Oakes Ames Second Edition \$4.75

The First Edition of 335 copies was printed from handset type on the press of the Botanical Museum of Harvard University, Cambridge, Massachusetts, in 1947. Most of these were distributed by Professor and Mrs. Ames as keepsakes to personal friends. The S.F.O.S., sensing the need of giving such a technically superior work a wider audience, had this Orchid Classic reprinted for your information and enjoyment by permission of Mrs. Oakes Ames.

THE ORCHIDS—A SCIENTIFIC SURVEY, \$14.00 Edited by Carl L. Withner

A full account of the science of orchidology as it is know to date. Each topic is dealt with by an expert—structure and classification, orchid physiology, hybridization, genetics, pests and diseases. Important to ALL orchid growers and fanciers—amateur or commercial. 625 pgs., 144 illus.

All Prices F.O.B. Miami

VENEZUELAN ORCHIDS—ILLUSTRATED (Vol. I) \$15.00

by G. C. K. Dunsterville and Leslie A. Garay

A monument in the annals of tropical orchidology. Probably the first extensive work illustrating with authenticity the members of the Orchidaceae from living material—many of the species being pictured for the first time.

PHILIPPINE ORCHIDS by Reg S. Davis and Mona Lisa Steiner \$5.00

A detailed treatment of some 100 native species.

ORCHIDS AS HOUSE PLANTS, by Rebecca T. Northen \$3.50

In detail, the culture and propagation of the 'new' house plant, The Orchid.

YOU CAN GROW ORCHIDS, by Mary Noble (Second Edition) \$1.98

A good revised introduction to orchid growing for the hobbyist.

HOME ORCHID GROWING, by Rebecca Tyson Northen (2d Ed.)

Author advises new edition "to be out in October". Large format, 8 $\frac{3}{8}$ " x 11" to display illustrations to good advantage. 352 pages, 206 halftones (many of which show several flowers or 'how-to' steps), 21 line cuts, and 13 color plates. ADVANCE ORDERS ACCEPTED for mailing as soon as available. TENTATIVELY priced, as we go to press, at \$10.95.

CORSAGE CRAFT, by Glad Reusch and Mary Noble \$4.95

Describes all types of corsage making. Illustrated with photos and line drawings.

BROMELIADS, by Mulford B. Foster \$2.00

A cultural handbook on Bromeliads

PLANTS INDOORS, by Mary Noble and J. L. Merkel \$6.95

A guide to their selection, care, and use in decoration. Well illustrated in black and white, also in color.

EXOTICA 3, (1961), by A. B. Graf Pre-publication \$29.50
On publication \$35.00

A Pictorial Cyclopedia of Indoor Plants. Revised and much enlarged; over 8000 photos of exotic plants arranged by families—279 in color, 466 line drawings and charts, 235 other illustrations, 3 maps. Approx. 1300 pages, 8 $\frac{1}{2}$ " x 11", attractively bound. A beautiful gift. (Publication date estimated for late 1961.)

All Prices F.O.B. Miami

ORCHID SUPPLIES

POTTING MATERIALS:

During the past few years, several new potting materials have found a place in orchid culture. OSMUNDA has been the proven potting material and has been used universally — almost exclusively — during the past fifty years. We do not feel that the new potting materials used today—Fir Bark or Tree Fern—are superior to Osmunda except perhaps for certain genera under certain climatic conditions. If one is not having success with the culture of a given genus, then it would be wise to try a different potting medium.

FIR-BARK and TREE-FERN are certainly much easier to pot with than Osmunda, and this fact, alone, will win them many users. Use of these two potting media makes it possible to keep up with the potting and leaves more free time to enjoy one's collection.

In the fir-bark and tree-fern categories, we believe that VITA-BARK and MEXI-FERN are the two best products of their kind on the market today—far superior to the competitive products.

VITA-BARK

VITA-BARK should be moistened before using because it is easier to handle and will respond much better to watering after potting. We recommend the removal of all the Osmunda fiber from orchid roots before potting in VITA-BARK. Repotting in VITA-BARK plants which have been in bark is a simple operation because the old bark can be shaken from the orchid roots without damaging them; with osmunda, there is no alternative but to pull the old fiber off the roots while exercising great care not to damage them.

VITA-BARK Prices as follows:

1 to 10 bags	-----	\$4.95 each
11 to 25 bags	-----	4.25 each
26 to 50 bags	-----	4.00 each

VITA-BARK is packed in 2-cu.-ft., three layer paper sacks—inner layer fortified with polyethylene. Weight varies according to the size of the particles—the smaller the grade, the heavier the bag. (Roughly, 40# per bag.)

Since the minimum Freight Charge (Rail or Truck) is based on 100#, we suggest that you order at least three bags of VITA-BARK when buying.

We are the Southeastern Distributors for VITA-BARK. QUANTITY PRICES ON REQUEST!

RECOMMENDED USAGE

1½" x ¾" size	for 8" pots, or larger	5/8" x 1/4" size	for 4"-6" pots
¾" x 1/4" size	for 7"-8" pots	1/2" x 1/4" size	for 2½"-3" pots
1/4" x 1/8" size	for small seedlings		

OSMUNDA FIBER (Depending on moisture content, approx. 40#)

Bale \$12

Enough for 10-12 5" pots. (1/4 bbl. paper bag) **Hobby Bag \$ 2.50**

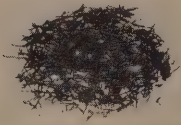

We continue to have good quality Osmunda gathered from the Everglades. Quality Osmunda, if this is the medium you prefer, is necessary to grow Quality plants. We can ship the best grade of Florida Osmunda in lots of one or more bales.

CHARCOAL (hardwood) ----- **20-lb. bag \$2.50**

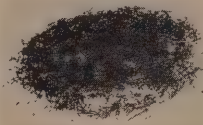

All Prices F.O.B. Miami

MEXI-FERN

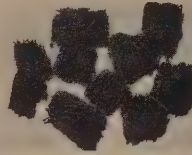

MEXI-FERN has a great advantage in that it does not decompose as rapidly as other potting media, yet it allows good drainage and aeration to the roots. This is prepared in FOUR sizes, packed in 2-cubic-foot cartons.

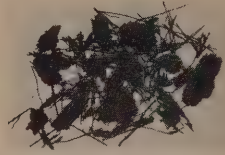

Coarse
\$5.25

Medium-Coarse
\$5.25

Chunks
\$5.25

Little Chunks
\$5.75

Since the minimum Freight Charge—Rail or Truck—is based on 100#, we suggest that you order several bags or cartons of Media for the same freight cost. (Cartons weigh roughly 20#.)

FERTILIZING

VITA-BARK and MEXI-FERN must be fertilized to insure good plant growth. Most authorities and experienced growers agree that nitrogen is needed to a greater extent than the other elements which are used in smaller quantities. We recommend the use of Peters 30-10-10 Fertilizer. The frequency of fertilizing depends on the season and the plant in question.

We have found a stock solution of 12 oz. of 30-10-10 to 3 gallons of water dispensed through a SYFONEX (which dilutes the concentrate 1 to 15) to be satisfactory. For a limited number of plants, 30-10-10 may be used 1 oz. to 4 gallons of water and applied directly on the potting medium.

FERTILIZERS:

Atlas Fish Emulsion	4 oz. \$0.39
100% Organic, non-burning. Deodorized.	1 pt. 1.00
Produced from sea-going fish.	1 qt. 1.90
	1 gal. 6.25

SIZES ARE APPROXIMATE.

CONDITIONS OF SALE

1. **FLORIDA RESIDENTS:** Please add the 3% Sales Tax to your remittance for all Supplies and Books.
2. **TERMS:**
Remittance in full payment to accompany order unless you have established credit with us. To open a 30-day account, please provide three credit references, one to be your bank.
3. **SHIPPING: — All Orders are F.O.B. Miami**

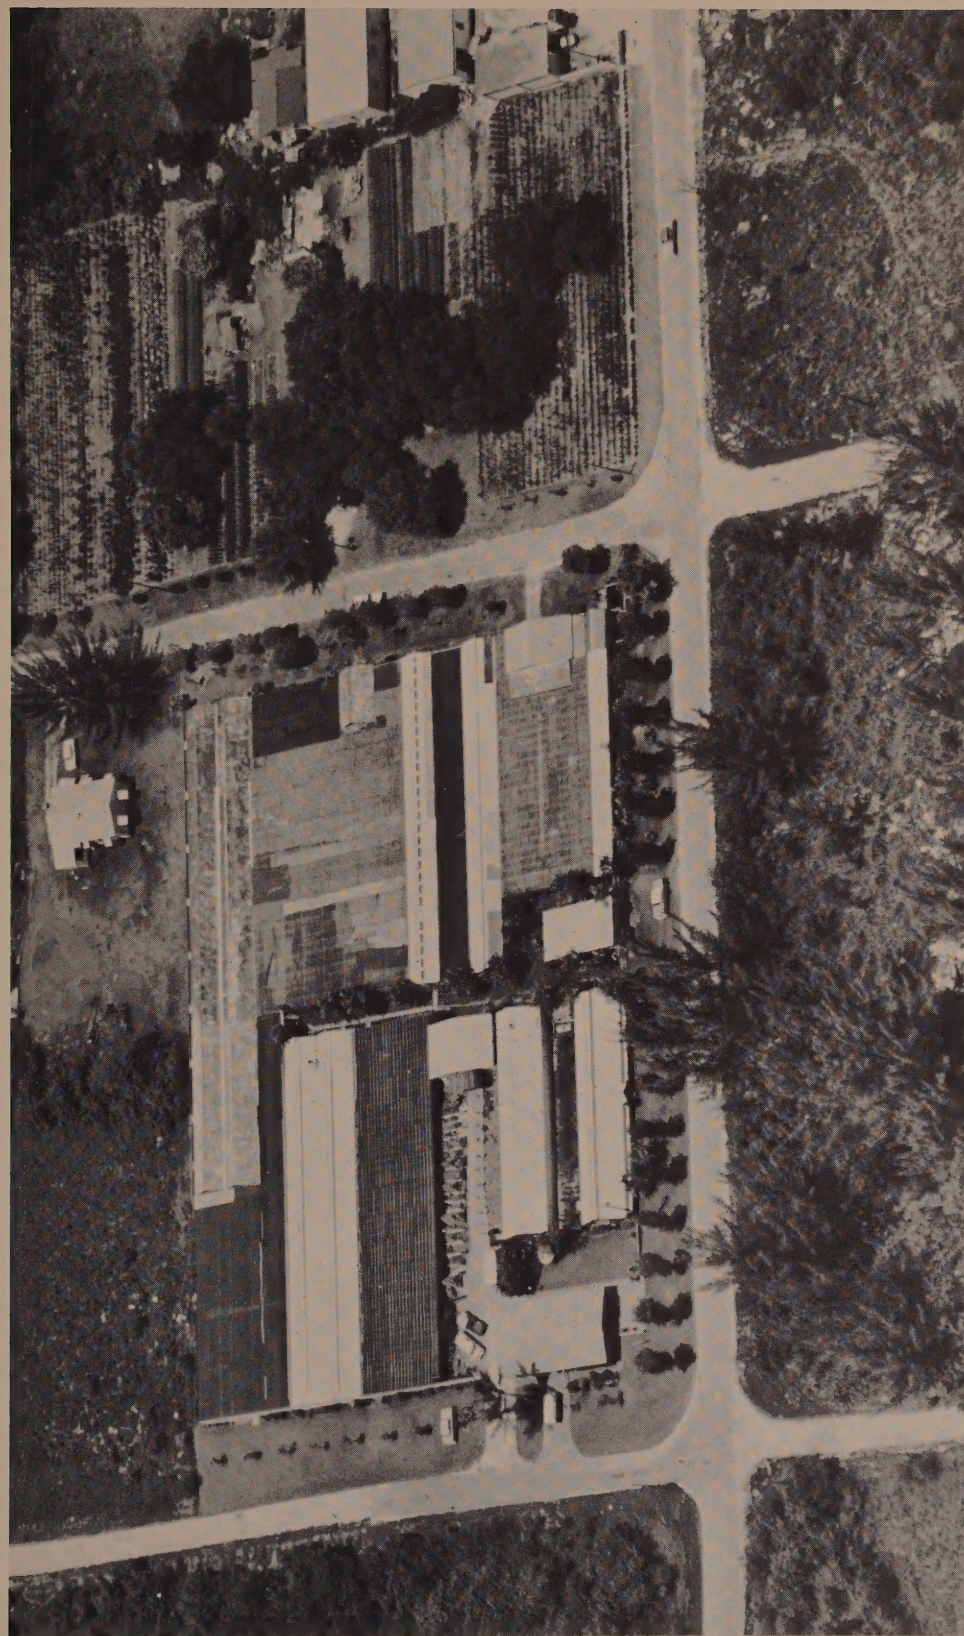

Plants:	{	Via Rail or Air Express at our discretion—unless you state a preference. Express Co. insures for full value. Most mature plants exceed the cubic dimension for Parcel Post and cannot be insured for SAFE delivery.
Seedlings:	{	Small orders can go via Parcel or Air Parcel Post, but Post Office will <i>not</i> insure for SAFE delivery of any plants. However, the method is satisfactory during warm weather.
Supplies:	{	(1) Via Parcel Post on small orders; estimated postal charges to be included with remittance. Any overage will be refunded promptly. (2) Via Freight—either Rail or Truck—on heavy bulky orders. Truck is generally more economical. Please specify!
4. **CLAIMS:**
All shipments turned over to a public carrier become YOUR property; claims for losses must be filed immediately with the CARRIER — NOT with our firm. We are always glad, however, to provide pertinent information so that your claim will be honored. (Inspector will want to see all packing material.)
5. We do not make a packing charge, but we pride ourselves on our methods.
6. Orders will be filled in rotation received.
7. No substitutions will be made on any plant order without specific authorization.
8. We reserve the right to withdraw any offering from sale at any time, and to limit quantities.
9. Prices are subject to change without notice, and this catalog supercedes all previous quotations, either in earlier editions or in advertising elsewhere.
10. For shipments to Hawaii, customer must obtain Import Permit from Board of Commissioners of Agriculture and Forestry, Honolulu, and submit same with order.
11. Please advise us of any unusual requirements pertaining to orchid shipments into your area or country.
12. We have built our business and reputation on the QUALITY of the plants we sell and on our INTEGRITY. Should any dealings you may have with our firm not be satisfactory, your comments will be welcome, for only in this way can we know how to serve you better!
13. **NON-WARRANTY:** We, JONES & SCULLY, INC. (Orchidglade), give no warranty, expressed or implied, as to the productiveness of any of the plants we sell, and will not be in any way responsible for the crop. Our liability, in all instances, is limited to the purchase price of these plants.
